8. Settings & preferences
9. Quick help (FAQ)

BAGIAN A. Panduan Bahasa Indonesia

Bagian ini berisi panduan lengkap dalam **Bahasa Indonesia**, sembilan bab dari pengenalan sampai bantuan cepat, dengan screenshot langkah-demi-langkah.

1. Pengenalan & persyaratan
2. Cara masuk (login)
3. Navigasi: menu & tampilan
4. Alur kerja sehari-hari
5. Membuat work item baru
6. Melihat status pekerjaan
7. Persetujuan (untuk atasan)
8. Pengaturan & preferensi
9. Bantuan cepat (FAQ)

1. Pengenalan & persyaratan

Paradise Task Tracker adalah aplikasi pencatat dan pelacak pekerjaan kantor PT Paradise Perkasa, dipakai lewat browser di alamat **https://space.paradiseperkasa.com**. Pekerjaan di aplikasi ini disebut **work item** (kartu pekerjaan). Setiap divisi (IT, Sales, HRGA, dsb.) punya **ruang kerja sendiri (project)**. Anda hanya melihat divisi Anda sendiri.

Sebelum mulai, pastikan Anda punya:

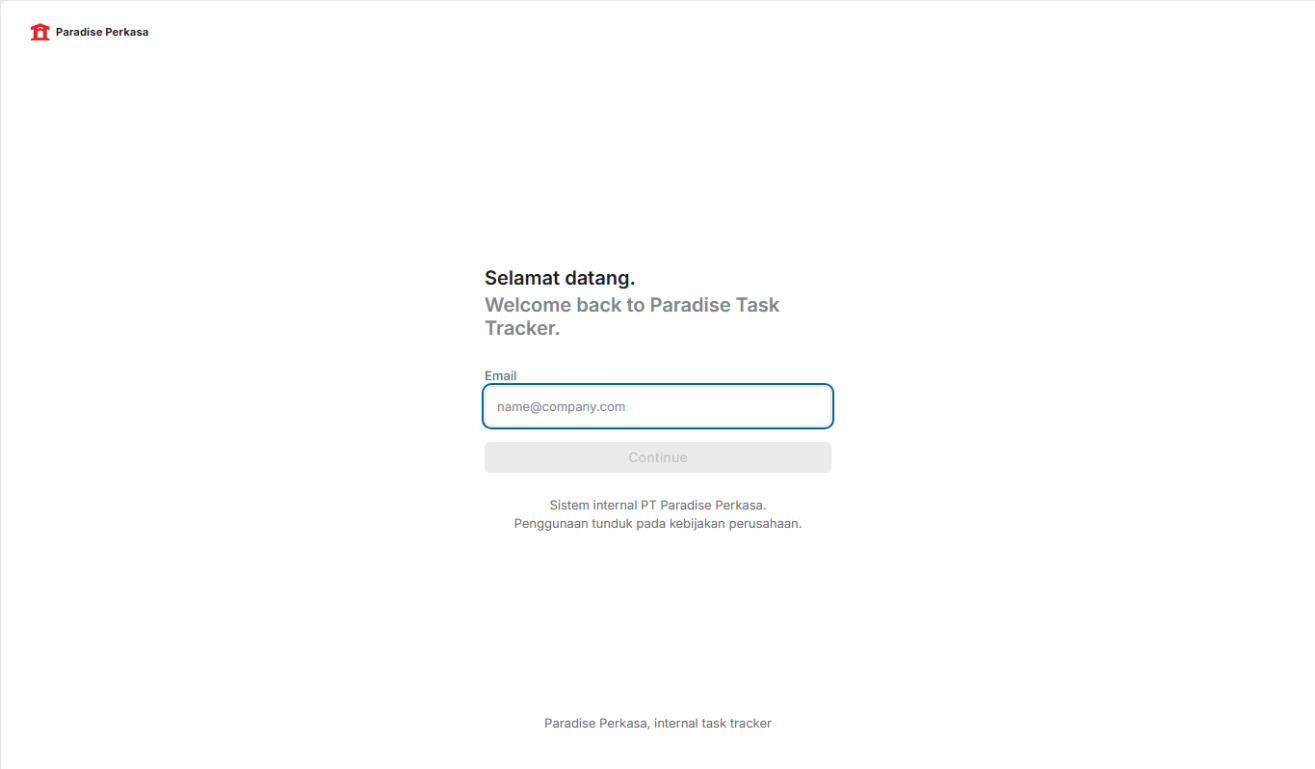

- Alamat aplikasi: **https://space.paradiseperkasa.com** (buka di browser).
- Akun email kantor + password awal dari IT.
- Koneksi internet/intranet kantor.

Istilah yang sering muncul (aplikasi memakai Bahasa Inggris):

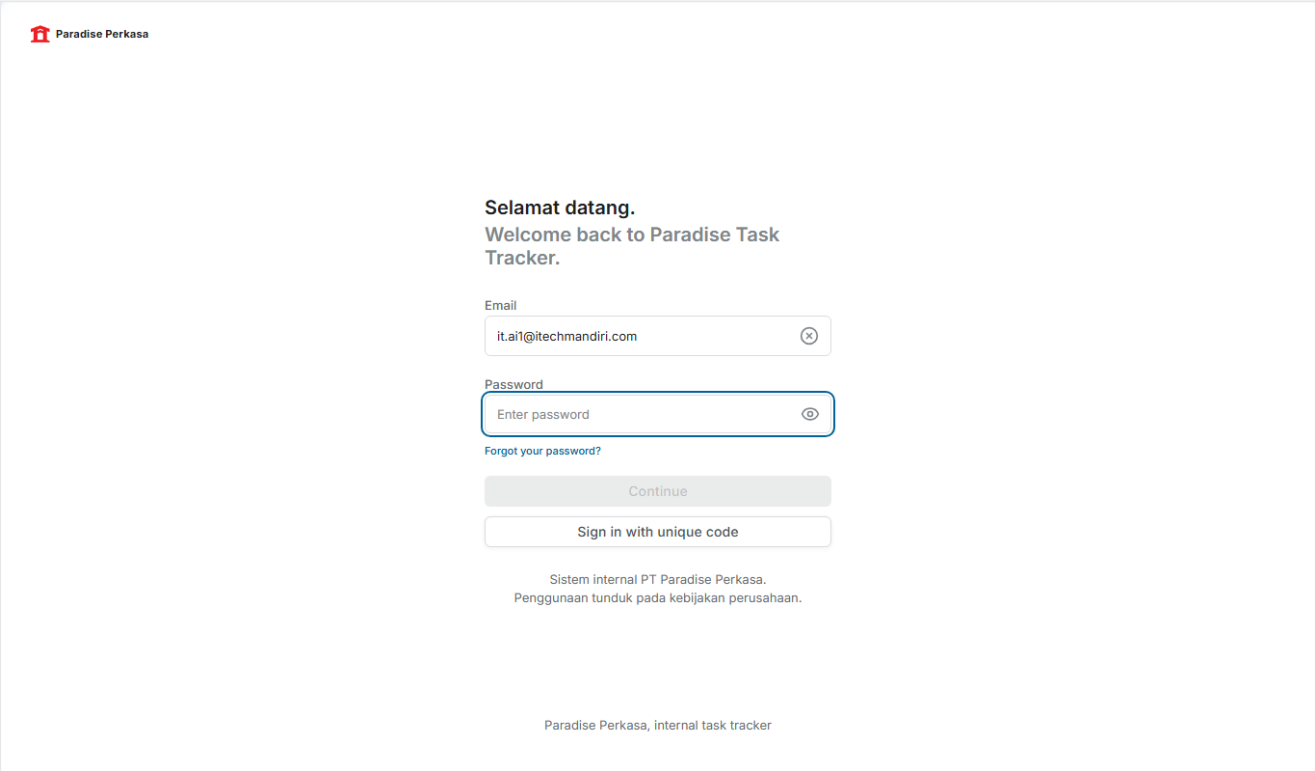

Istilah di layar	Artinya
Work item	Kartu/tugas pekerjaan
Add work item	Tambah pekerjaan baru
Approvals	Persetujuan
Needs my decision	Perlu keputusan saya (untuk atasan)
My requests	Pengajuan saya (untuk staf)
Awaiting approval	Menunggu persetujuan atasan
Approved	Disetujui, boleh dikerjakan
Backlog / Todo / In Progress	Antri / Belum dikerjakan / Sedang dikerjakan
Assignee	Pelaksana (orang yang mengerjakan)
Save / Discard	Simpan / Batalkan

2. Cara masuk (login)

1. Buka **https://space.paradiseperkasa.com** di browser. Halaman menyapa “Selamat datang / Welcome back”.
2. Ketik **email kantor** di kolom Email, klik **Continue**.
3. Ketik **password**, klik **Continue**.
4. Jika muncul pesan kesalahan, periksa ketikan (huruf besar/kecil). Masih gagal? Hubungi IT.
5. Anda masuk ke workspace **PT Paradise Perkasa**.

Gambar 1, Halaman login, isi email kantor lalu klik Continue. / Sign-in page.

Gambar 2, Halaman password. / Password page.

2.1. Masuk dengan kode OTP (tanpa password)

Selain password, Anda bisa masuk memakai **kode OTP** yang dikirim ke email. Caranya:

1. Di halaman password, klik tautan **Sign in with unique code**.
2. Kode OTP dikirim ke **email kantor** Anda. Buka inbox email dan salin kodenya.
3. Kembali ke aplikasi, masukkan kode di kolom yang tersedia, klik **Continue**.
4. Kode kedaluwarsa dalam beberapa menit. Jika kedaluwarsa, minta kode baru lewat tombol kirim ulang.

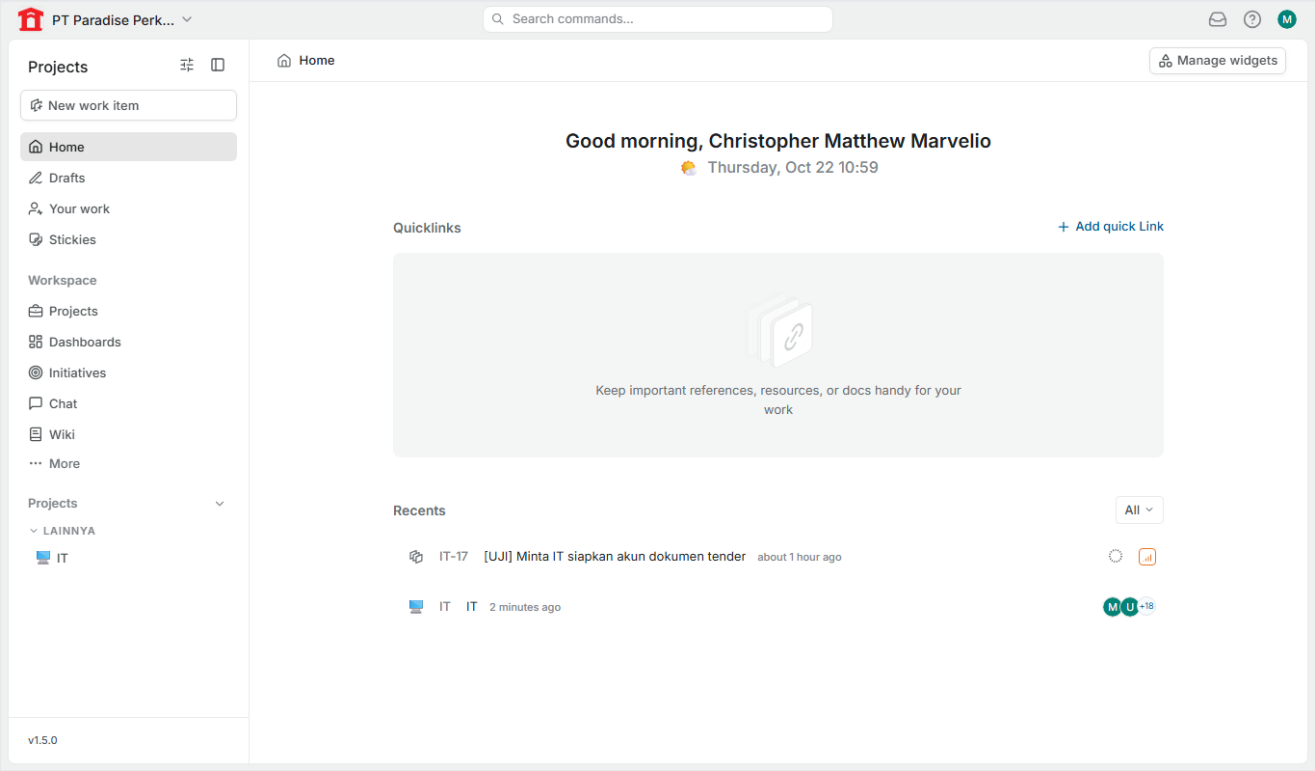

PERHATIAN / NOTE

Keamanan: Jangan berikan password kepada siapa pun, termasuk atasan. Saat login pertama, segera ganti password (lihat Bagian 8).

3. Navigasi: menu & tampilan

3.1. Halaman Home (beranda)

Setelah login Anda tiba di **Home**: sapaan nama + tanggal, **Quicklinks** (tautan favorit Anda), dan **Recents** (halaman yang baru dibuka). Tombol **Manage widgets** mengatur isi beranda.

Gambar 3, Beranda: sapaan, Quicklinks, Recents. / Home page.

3.2. Menu kiri (sidebar)

- **New work item**, tombol cepat membuat pekerjaan baru.
- **Home, Drafts, Your work**, beranda, draf tersimpan, dan semua pekerjaan yang ditugaskan kepada Anda.
- **Stickies**, catatan tempel pribadi.
- **Workspace**, area perusahaan: **Projects** (daftar divisi, klik divisi Anda), **Dashboards, Initiatives, Chat, Wiki** (fitur tambahan), **More**.
- Bagian bawah: jalan pintas divisi di **Projects / LAINNYA** (contoh: [IT]).

3.3. Menu dalam divisi

Setelah membuka divisi (misalnya IT), submenu kiri berubah:

- **Work items**, papan semua pekerjaan divisi (halaman utama kerja harian).
- **Cycles, Modules, Views**, pengelompokan & tampilan lain (opsional).
- **Pages**, halaman dokumen. **Intake**, kotak masuk permintaan dari divisi lain.
- **Approvals**, halaman persetujuan (Bagian 6-7).

3.4. Bagian atas (header)

- Kolom **Search commands...**, mencari pekerjaan/perintah dengan cepat.
- Kanan atas: notifikasi, bantuan, dan **foto/huruf nama Anda**, klik untuk menu profil, pengaturan, dan keluar (log out).

3.5. Siapa bisa apa (peran)

Peran	Bisa apa
Staf	Membuat work item dan menugaskannya **kepada diri sendiri**; melihat status pengajuan di Approvals → My requests; mengajukan ulang bila ditolak.
Atasan (supervisor / manajer / direktur divisi)	Semua hak staf, plus **menyetujui/menolak** pengajuan staf di Approvals → Needs my decision.

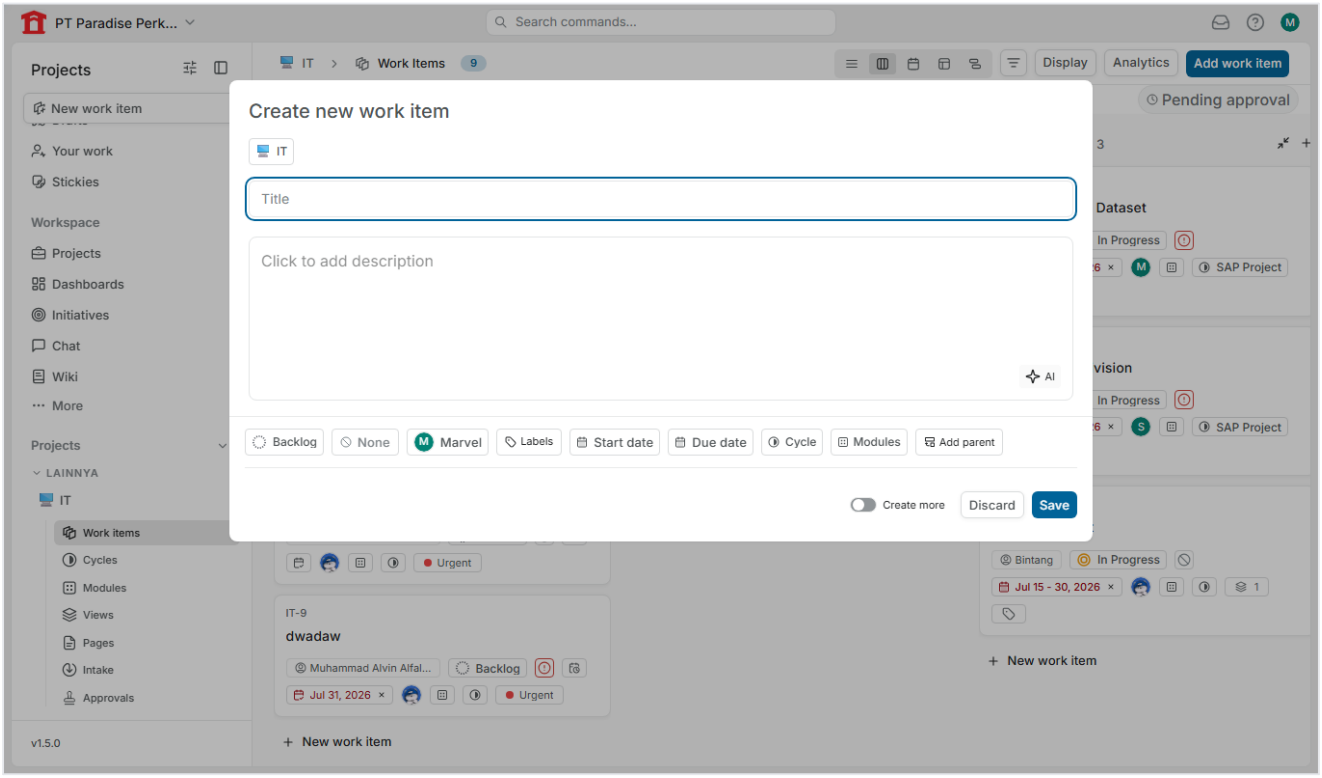

4. Alur kerja sehari-hari

1. **Buat** work item untuk pekerjaan Anda (Bagian 5). Karena pelaksananya diri sendiri, statusnya otomatis **Awaiting approval**.
2. **Atasan** membuka Approvals dan menyetujui/menolak (Bagian 7).
3. **Disetujui** → kerjakan, geser statusnya (Backlog → Todo → In Progress → selesai).
4. **Ditolak** → baca alasan, perbaiki, **ajukan ulang**.

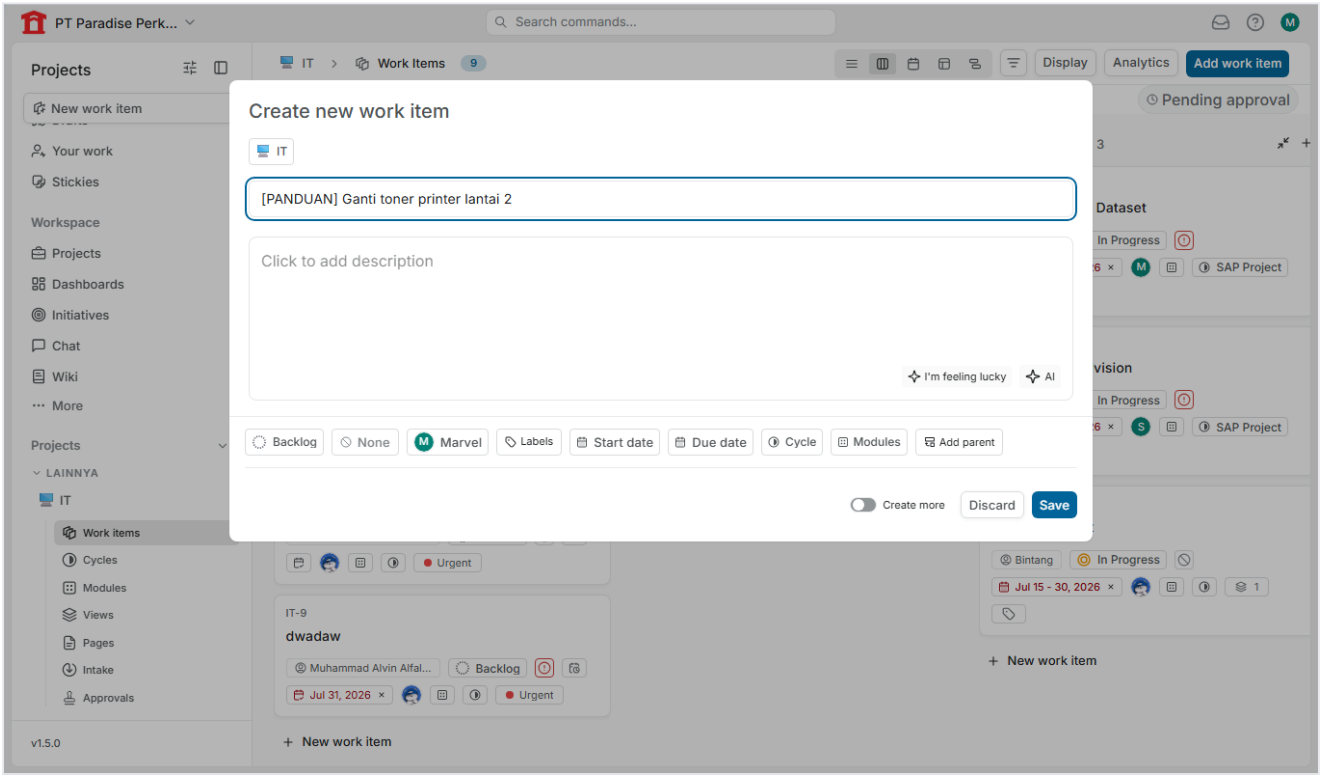

- Staf hanya menugaskan pekerjaan **kepada diri sendiri**.
- Penolakan **wajib beralasan** tertulis.
- Tidak ada yang bisa menyetujui pekerjaannya sendiri.

5. Membuat work item baru

1. Buka divisi → **Work items**. Klik tombol biru **Add work item** (atau **+ New work item** di tiap kolom).
2. Jendela **Create new work item** terbuka. Isi:
   - **Title**, judul singkat & jelas, mis. Ganti toner printer lantai 2.
   - **Description**, penjelasan tambahan (tidak wajib).
   - **Pelaksana**, otomatis nama Anda. **Jangan diubah.**
   - **Status awal**, biarkan Backlog. **Priority**, biarkan None kecuali diminta atasan.
   - **Labels, Start/Due date, Cycle, Modules**, opsional.
3. Klik **Save** (**Discard** untuk batal; **Create more** bila ingin langsung membuat lagi).
4. Kartu muncul di **Backlog** dengan nomor (mis. **IT-27**) dan label **Awaiting approval**.

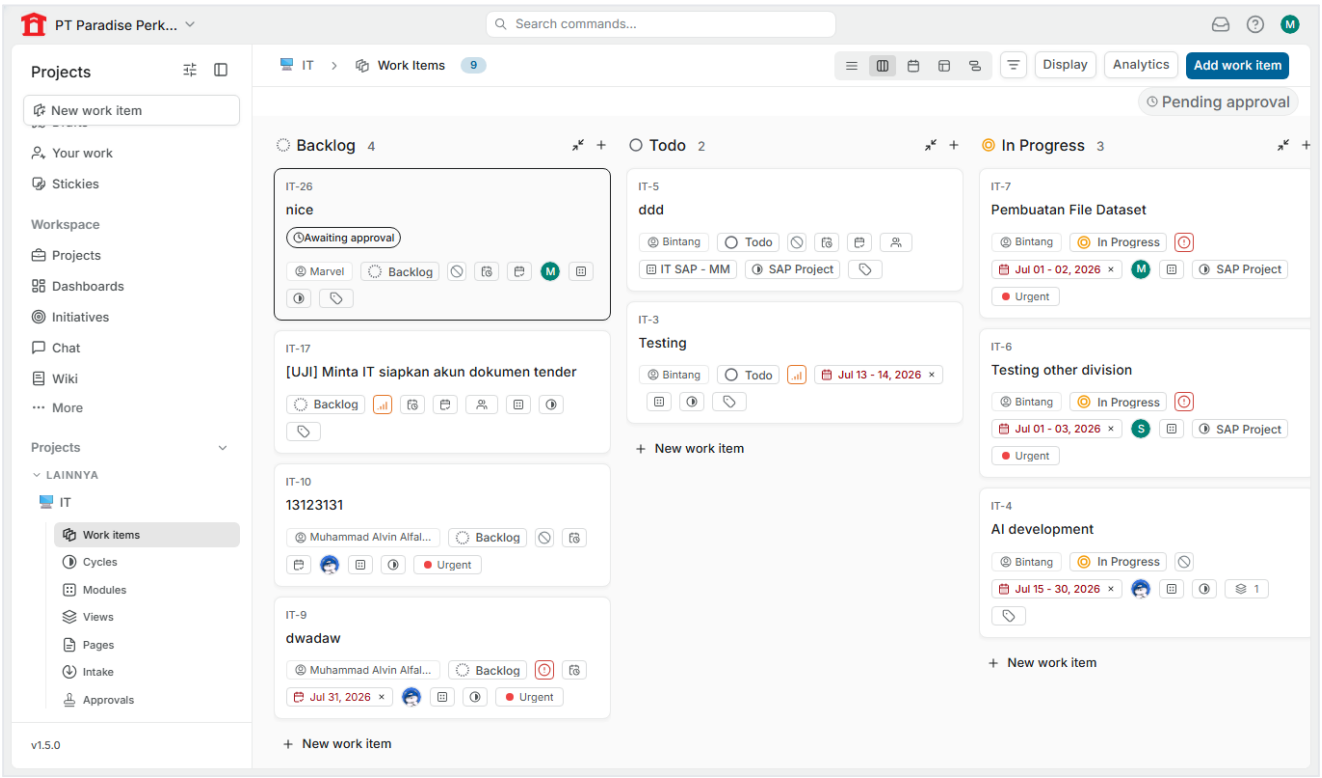

Gambar 4, Form 'Create new work item'. / New work item form.

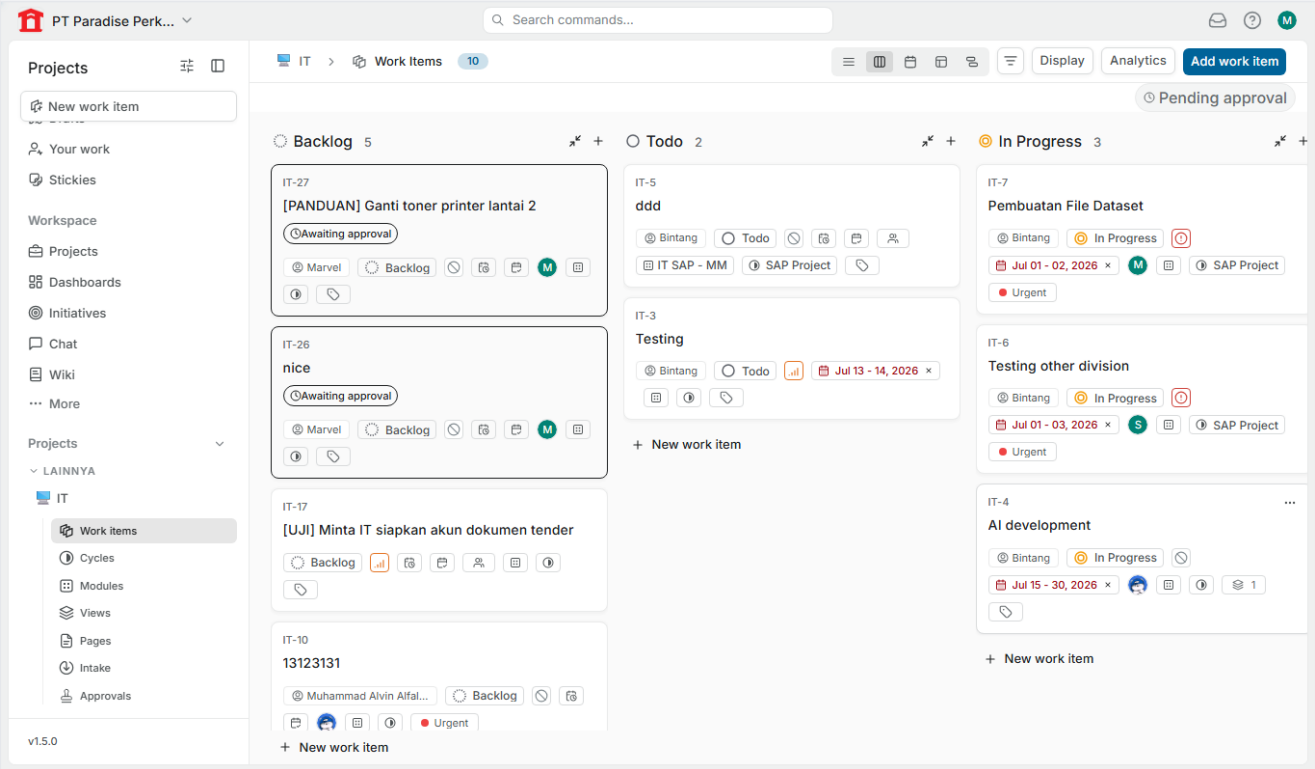

Gambar 5, Form terisi: judul + pelaksana (nama sendiri), siap klik Save. / Filled form.

TIPS / TIP

Tips judul: diawali kata kerja, Perbaiki AC ruang meeting, Siapkan laporan stok Maret, Hubungi vendor X untuk penawaran.

Gambar 6, Papan Work items: kolom Backlog/Todo/In Progress, kartu bernomor + label status, tombol Add work item, penanda Pending approval. / Work items board.

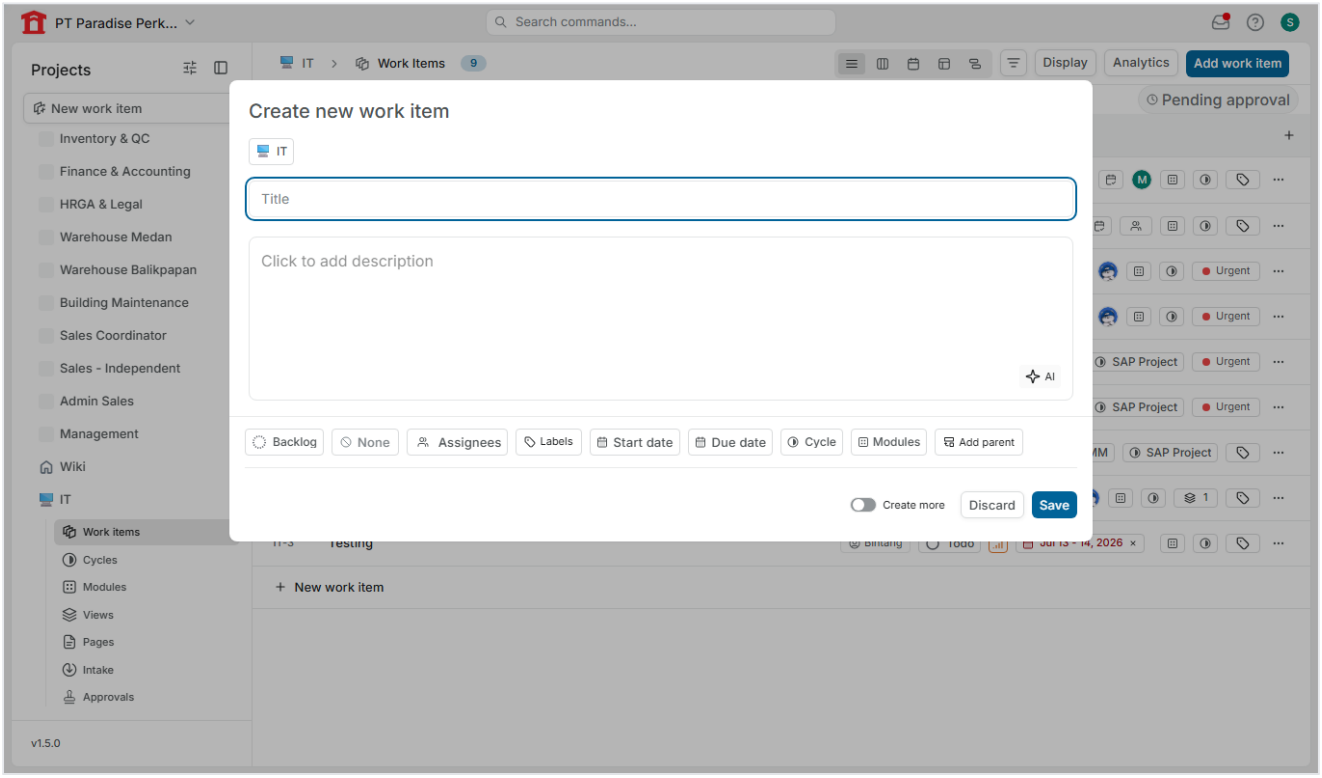

Gambar 7, Kartu baru IT-27 berlabel 'Awaiting approval'. / New card awaiting approval.

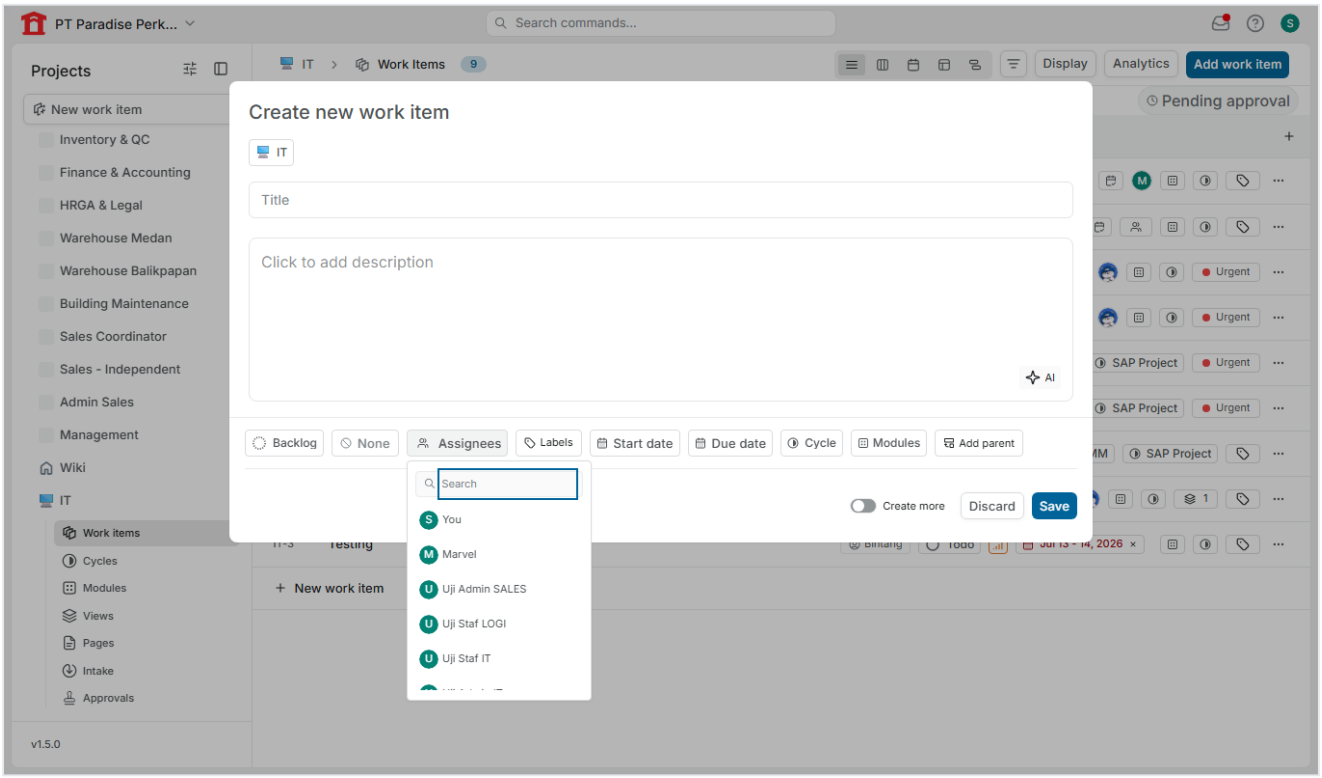

5.4. Khusus atasan: membuat work item untuk bawahan

Atasan memakai jendela yang sama, tetapi bisa memilih **pelaksana lain**: anggota divisinya (bawahan). Caranya:

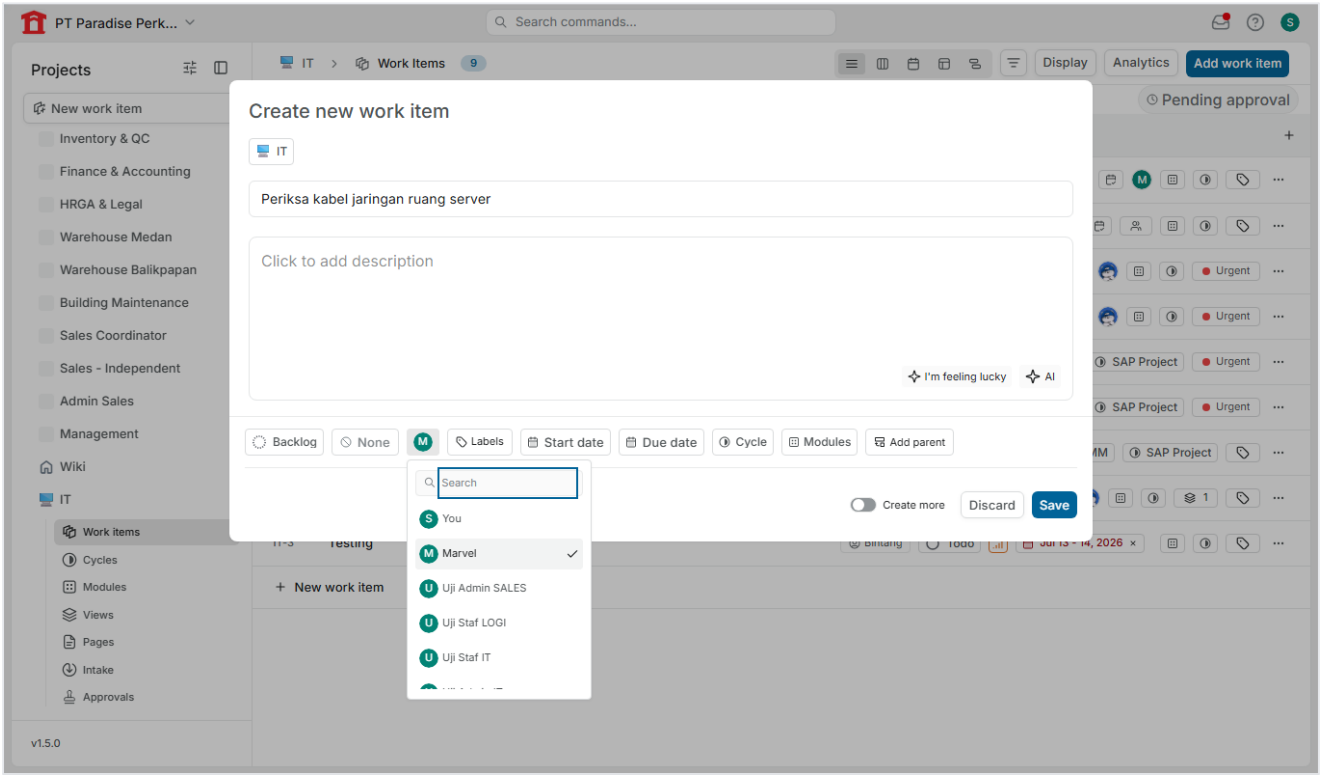

1. Klik **Add work item** dan isi **Title** seperti biasa.
2. Klik tombol **Assignees** (pelaksana). Terbuka daftar anggota: **You** (diri sendiri) plus nama bawahan/anggota divisi. Ketik di kolom **Search** bila daftar panjang.
3. Klik **nama bawahan** yang ditugaskan (bertanda centang). Bisa pilih lebih dari satu orang. Klik di luar daftar untuk menutupnya.
4. Lengkapi lainnya bila perlu, klik **Save**.

Gambar 8, Form yang sama dari akun atasan, tombol 'Assignees' untuk memilih pelaksana. / Same form from a manager account.

Gambar 9, Klik 'Assignees': muncul daftar 'You' + anggota divisi. / Assignee dropdown with division members.

Gambar 10, Judul terisi + bawahan (Marvel) terpilih (centang), siap klik Save. / Subordinate selected.

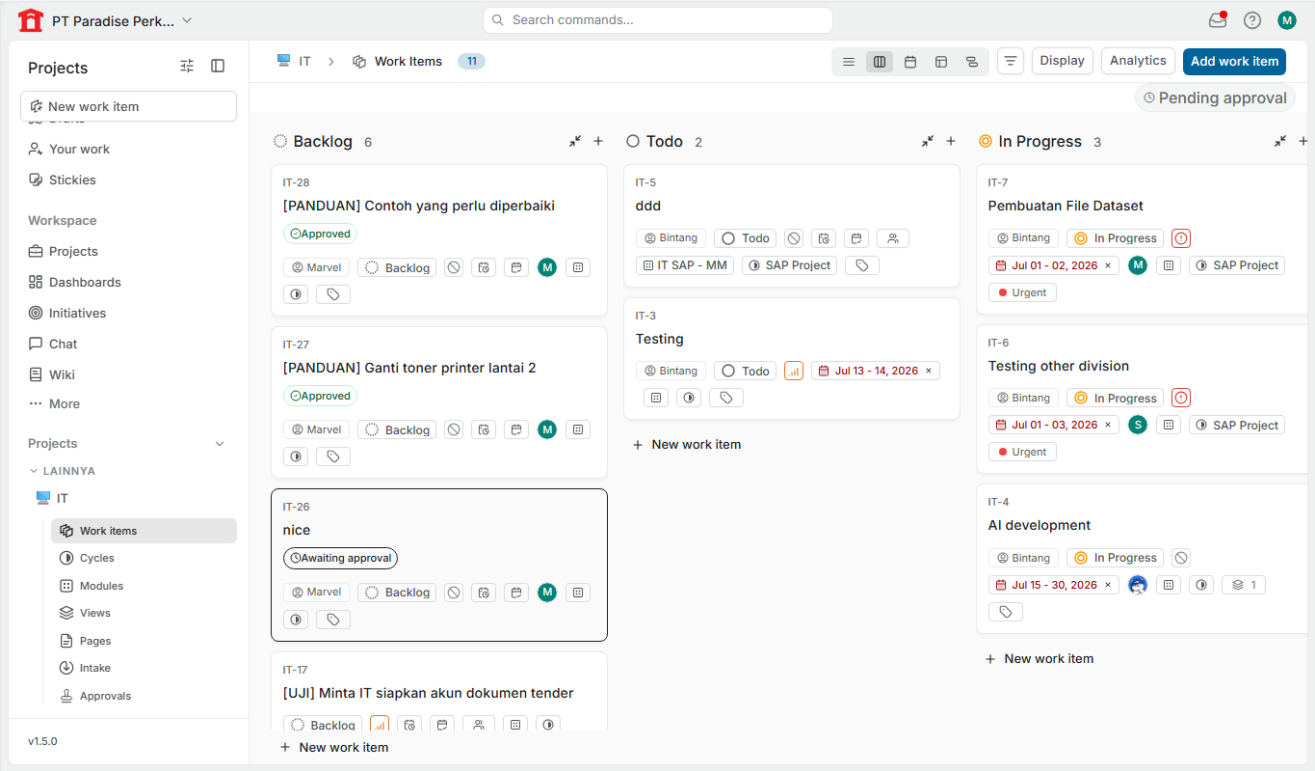

INFO

Pekerjaan yang dibuat **atasan tidak perlu persetujuan**, baik ditugaskan ke bawahan maupun ke diri sendiri, dan langsung muncul di papan **tanpa** label “Awaiting approval”. Persetujuan hanya berlaku bila **staf menugaskan ke dirinya sendiri**. Atasan hanya bisa menugaskan ke anggota **divisinya sendiri**.

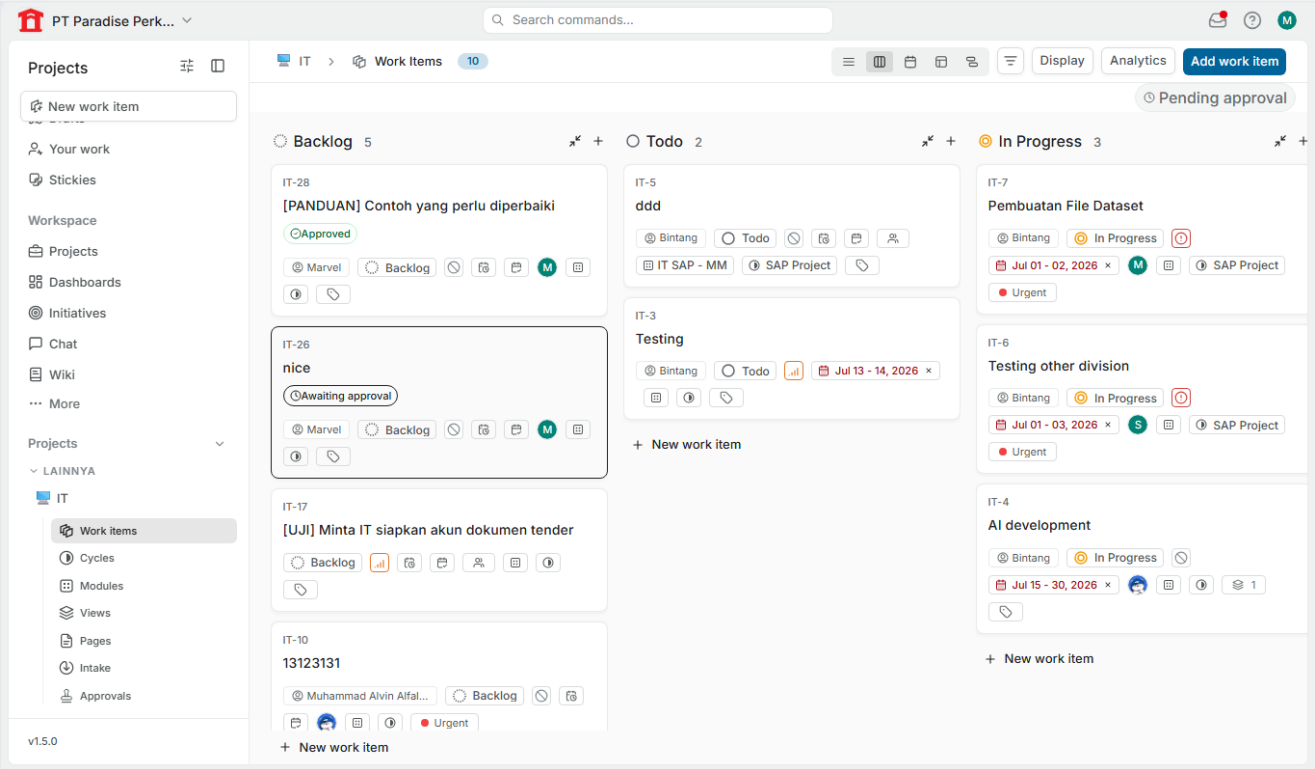

6. Melihat status pekerjaan

6.1. Di papan Work items

Tiap kartu menampilkan **nomor, judul, pelaksana, status**, plus label prioritas (mis. Urgent) dan tanggal. Label kuning **Awaiting approval** = menunggu atasan. Label hijau **Approved** = sudah disetujui. Kartu yang **ditolak hilang dari papan** (kembali menjadi draf tak-terlihat), lihat statusnya di halaman Approvals.

Gambar 11, Sesudah disetujui: label hijau 'Approved' (IT-27, IT-28). IT-26 masih 'Awaiting approval'. / Approved badges on board.

Gambar 12, Efek penolakan: IT-27 yang ditolak hilang dari papan (menjadi draf); IT-28 yang disetujui berlabel Approved. / Rejected item leaves the board.

6.2. Di halaman Approvals → My requests

1. Buka divisi → **Approvals**.
2. Klik **My requests** (Pengajuan saya) di atas daftar.
3. Terlihat semua pengajuan Anda: **menunggu / disetujui / ditolak + alasan**. Yang ditolak bisa **diajukan ulang (resubmit)** setelah diperbaiki.

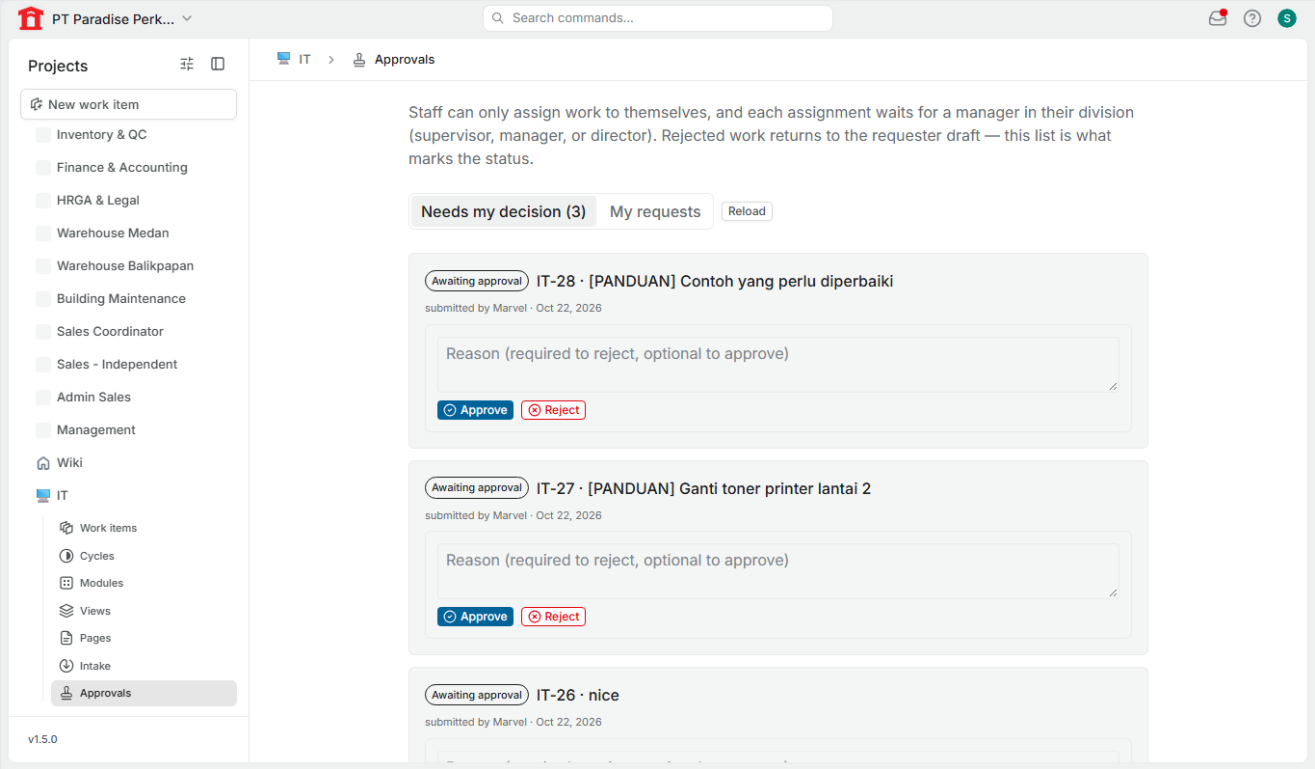

INFO

Jika daftar Approvals tampak memuat lama atau berkedip, itu gangguan tampilan yang sudah dilaporkan ke IT, klik **Reload** dan tunggu sebentar; data pengajuan Anda aman.

7. Persetujuan (untuk atasan)

7.1. Membuka antrean

1. Buka divisi → **Approvals**. Pastikan **Needs my decision** aktif.
2. Tiap baris berisi: **nomor & judul, nama pengaju, tanggal**, kolom alasan, dan tombol **Approve / Reject**.

Gambar 13, Antrean atasan: 3 pengajuan menunggu, tiap kartu ada kolom alasan + tombol Approve/Reject. / Manager queue with decision buttons.

7.2. Menyetujui / menolak

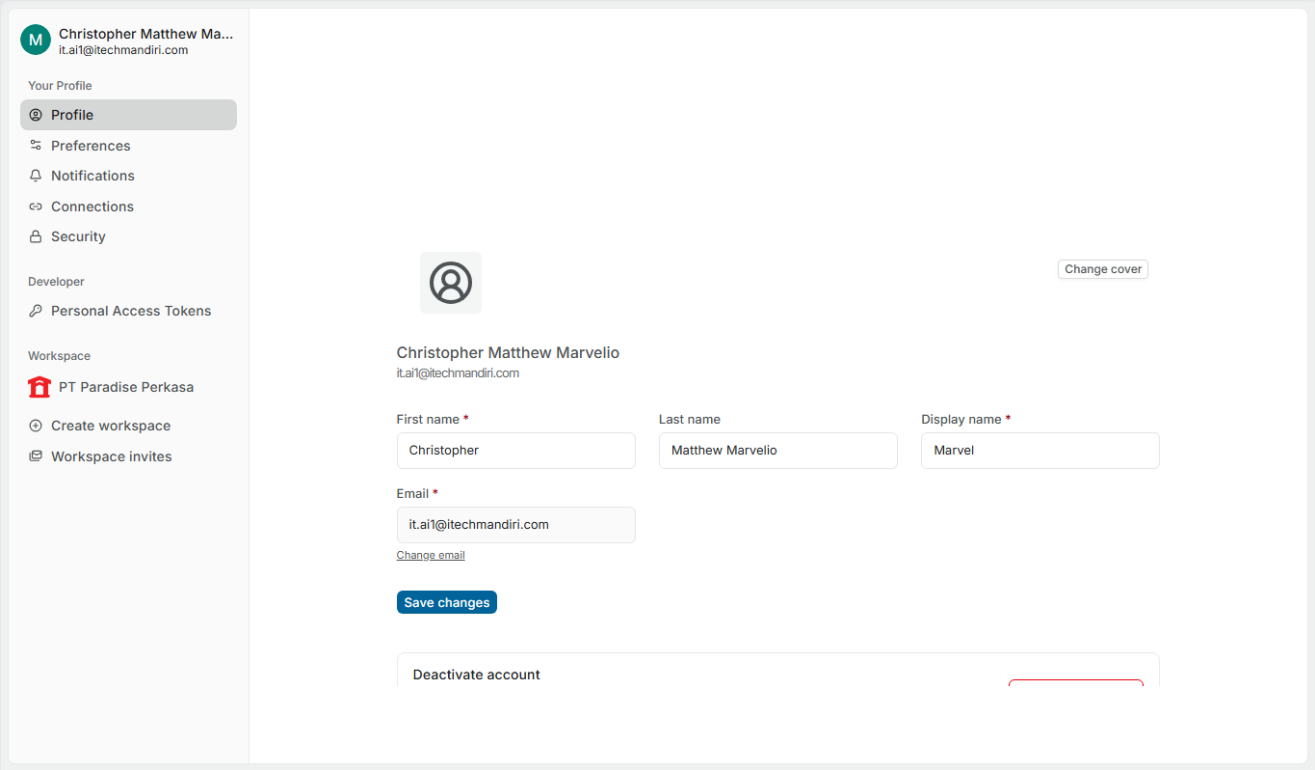

1. Isi kolom alasan bila perlu. **Menolak wajib diisi**, staf membutuhkannya untuk memperbaiki; menyetujui boleh dikosongkan.
2. Klik **Approve** atau **Reject**.
3. Baris hilang dari antrean; status berubah di sisi staf (Approved di papan, atau hilang + alasan di My requests).

7.3. Siklus lengkap

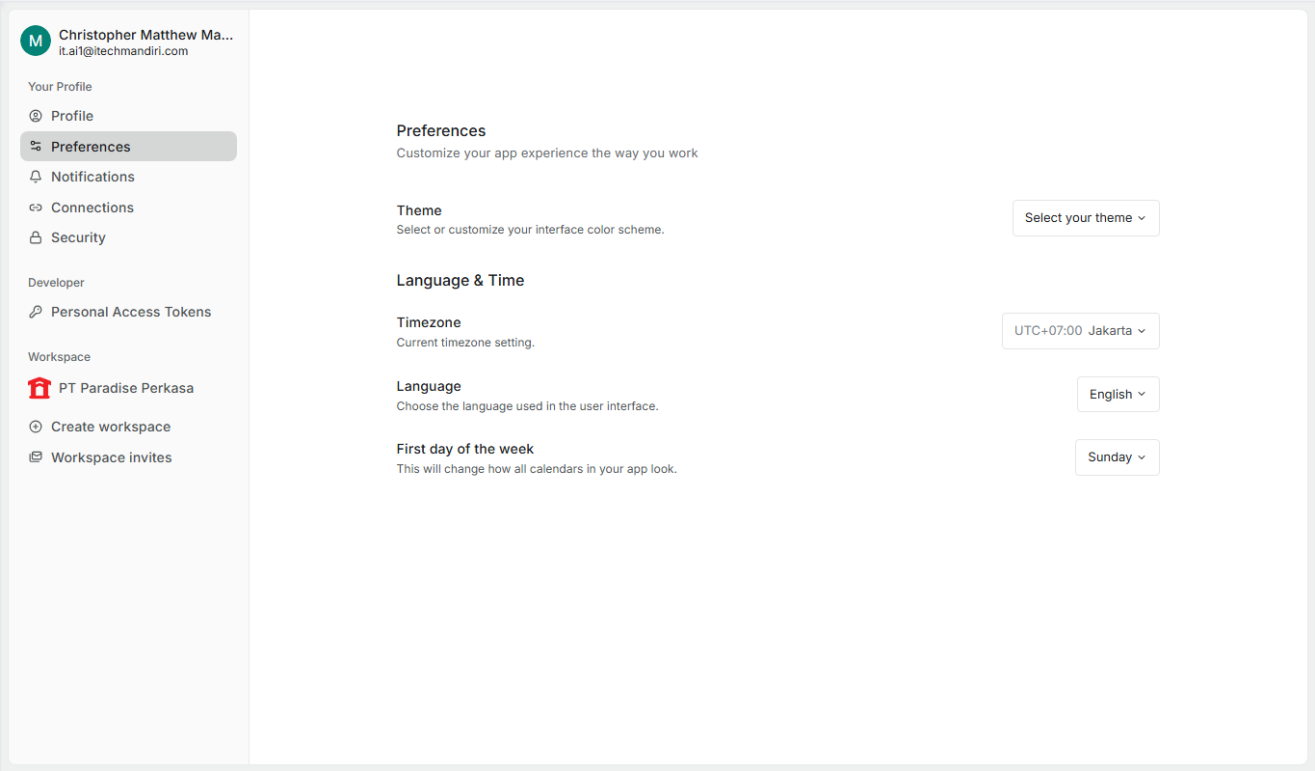

Contoh nyata dari sistem ini. IT-27 “Ganti toner printer lantai 2”: staf membuat → atasan **menolak** dengan alasan → staf memperbaiki & **mengajukan ulang** → atasan **menyetujui** → kartu berlabel hijau **Approved**. Jika staf bertanya “kenapa ditolak?”, arahkan ke **Approvals → My requests**.

8. Pengaturan & preferensi

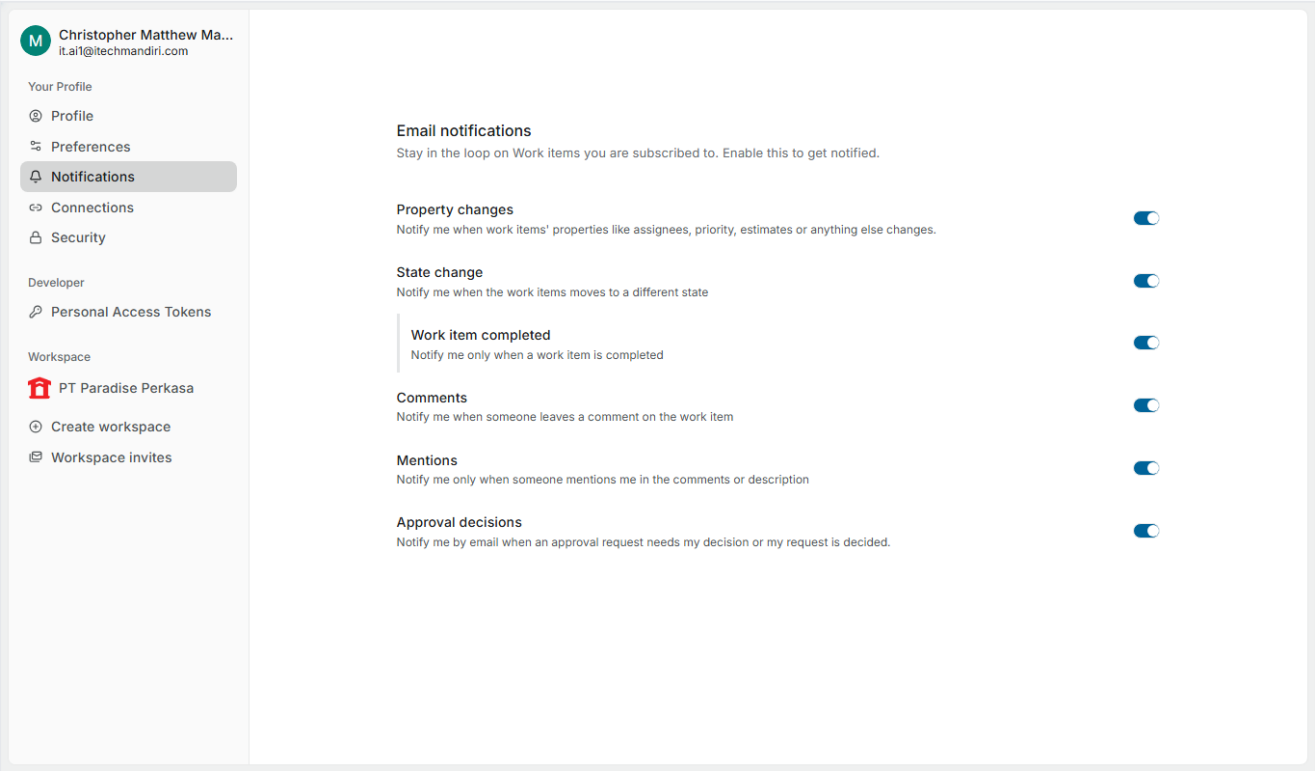

1. Klik **foto/huruf nama Anda** kanan atas → pilih **Profile/Settings**.
2. **Profile (Umum)**, nama depan/belakang, nama tampilan (Display name), foto, email.
3. **Preferences (Preferensi)**, **Theme** (terang/gelap), **Timezone** (pastikan UTC+07:00 Jakarta), **Language**, **First day of the week**.
4. **Notifications (Notifikasi)**, saklar email: perubahan properti, pindah status, komentar, disebut (mentions), dan **Approval decisions**. Disarankan tetap aktif.
5. **Security (Keamanan)**, ganti password: isi password lama + password baru dua kali, klik **Change password**.
6. Keluar dari aplikasi: klik foto profil → **Log out**.

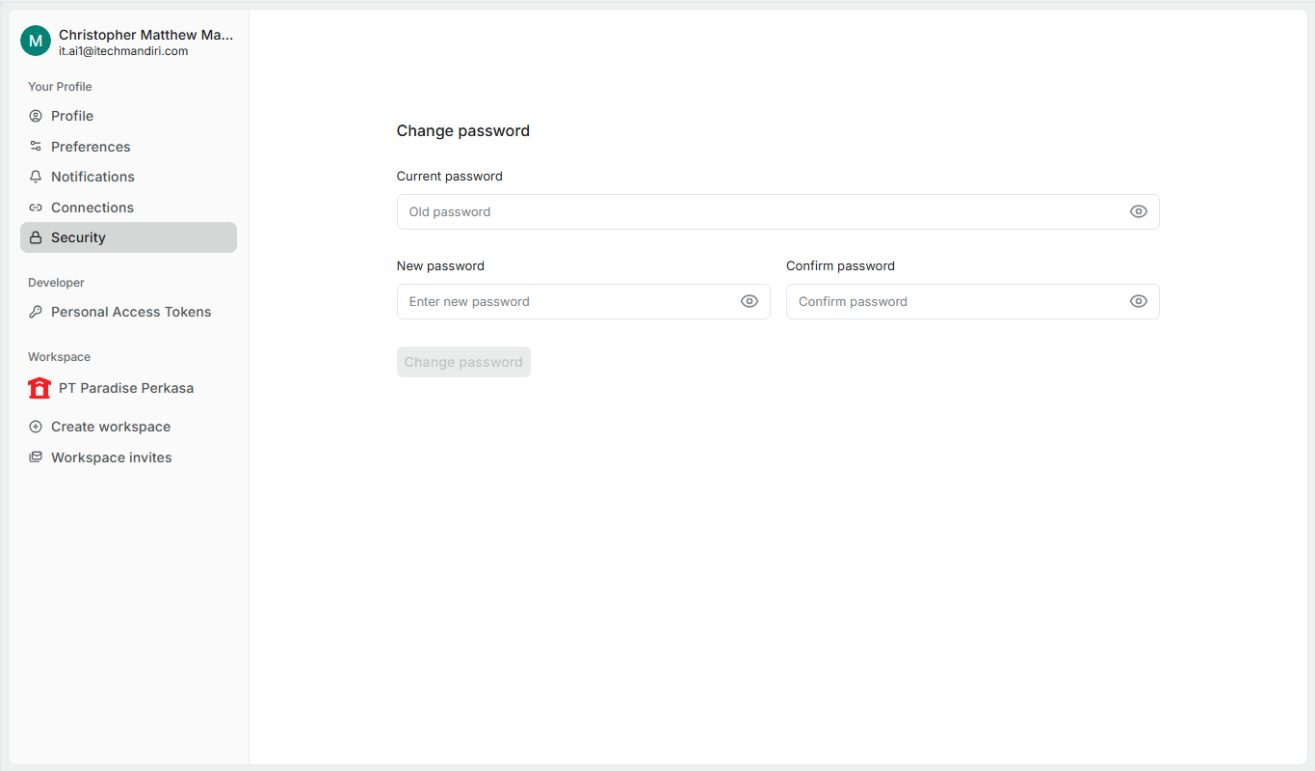

Gambar 14, Pengaturan Profile: nama, display name, email. / General profile settings.

Gambar 15, Preferences: Theme, Timezone (Jakarta), Language, awal pekan. / Preferences.

Gambar 16, Notifikasi email, termasuk 'Approval decisions'. / Email notifications.

Gambar 17, Security: ganti password. / Change password.

9. Bantuan cepat (FAQ)

Masalah	Solusi
Tidak bisa login	Periksa email & password (huruf besar/kecil). Masih gagal? Hubungi IT.
Tidak melihat divisi lain	Normal. Anda hanya bisa melihat divisi sendiri.
Tombol Save tidak jalan	Judul masih kosong, isi dulu kolom Title.
Macet di “Awaiting approval”	Menunggu atasan. Ingatkan atasan membuka Approvals.
Pengajuan ditolak	Baca alasan di Approvals → My requests, perbaiki, ajukan ulang.

Masalah (lanjutan)	Solusi (lanjutan)
Tanggal terlihat aneh	Preferences → Timezone = UTC+07:00 Jakarta.
Daftar Approvals kedip/lama	Klik Reload, tunggu sebentar. Sudah dilaporkan ke IT; data aman.
Lupa password	Security → Change password (perlu password lama), atau hubungi IT untuk reset.
Butuh bantuan lain	Hubungi IT dengan menyebutkan nomor work item (mis. IT-27).

PART B. English User Guide

This part contains the complete guide in **English**, nine chapters from introduction to quick help, with step-by-step screenshots.

1. Introduction & requirements
2. Signing in
3. Navigation: menus & layout
4. Daily workflow
5. Creating a new work item
6. Tracking your work status
7. Approvals (for managers)
8. Settings & preferences
9. Quick help (FAQ)

1. Introduction & requirements

Paradise Task Tracker is PT Paradise Perkasa's internal app for recording and tracking office work, opened in a browser at **https://space.paradiseperkasa.com**. A unit of work is called a **work item** (job card). Each division (IT, Sales, HRGA, etc.) has its **own workspace (project)**, you only see your own division.

Before you start, make sure you have:

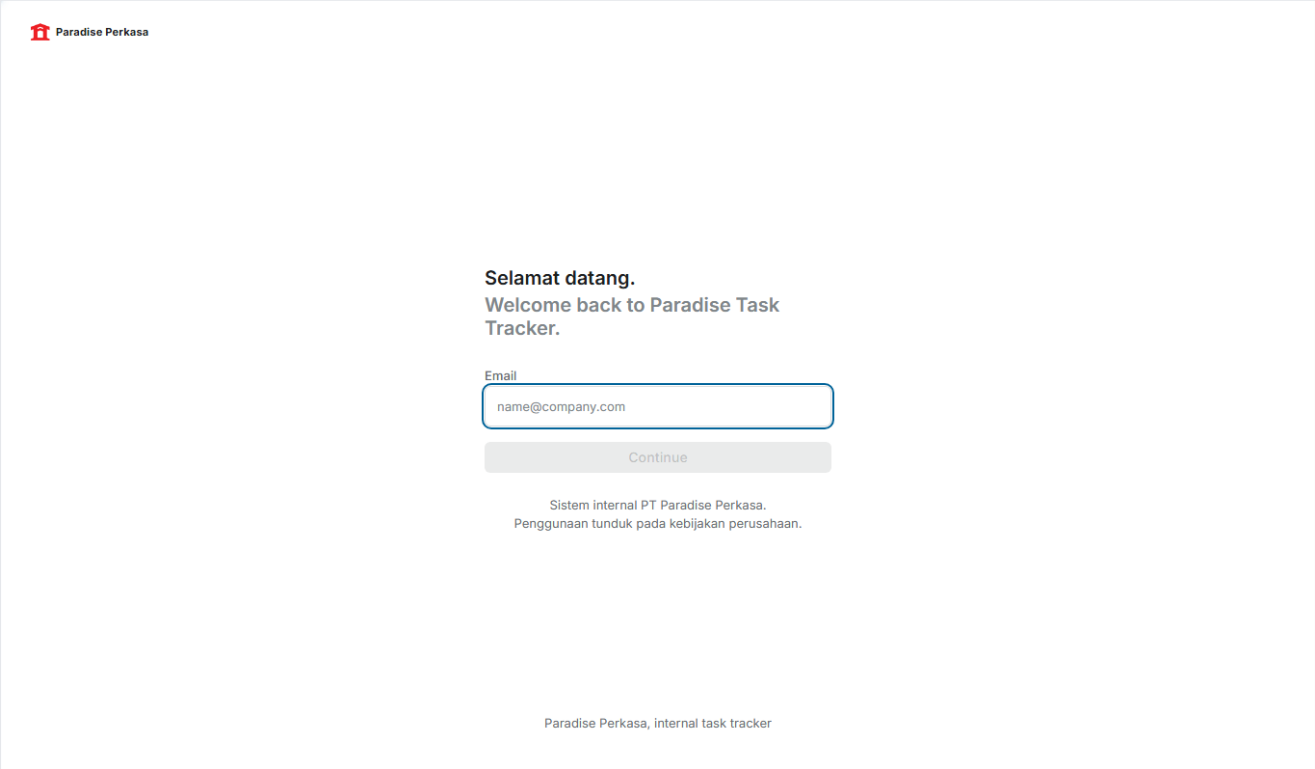

- The app address: **https://space.paradiseperkasa.com** (open it in a browser).
- Your office email account + initial password from IT.
- Office internet/intranet connection.

Common terms (the app uses English):

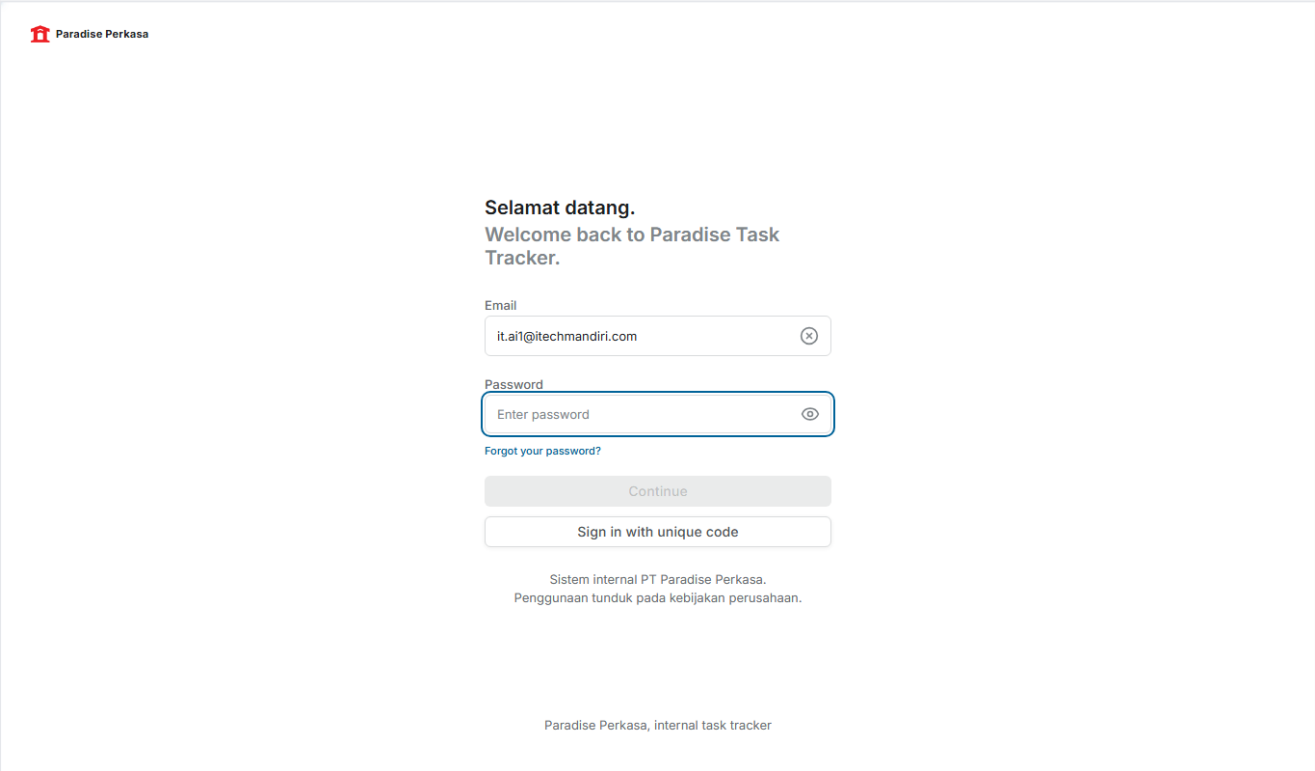

On-screen term	Meaning
Work item	Job/task card
Add work item	Create a new job
Approvals	Approval queue
Needs my decision	Items waiting for your decision (managers)
My requests	Your own submissions (staff)
Awaiting approval	Waiting for the manager's decision
Approved	Approved, you may start working
Backlog / Todo / In Progress	Queued / Not started / Being worked on
Assignee	The person doing the work
Save / Discard	Save / Cancel

2. Signing in

1. Open **https://space.paradiseperkasa.com** in your browser. It greets you with “Selamat datang / Welcome back”.
2. Type your **office email** in the Email field, click **Continue**.
3. Type your **password**, click **Continue**.
4. If an error appears, recheck your typing (upper/lower case). Still stuck? Contact IT.
5. You land in the **PT Paradise Perkasa** workspace.

Gambar 18, Sign-in page, enter your office email, then Continue.

Gambar 19, Password page.

2.1. Signing in with an OTP code (no password)

Besides a password, you can sign in with an **OTP code** sent to your email. How:

1. On the password page, click **Sign in with unique code**.
2. An OTP code is sent to your **office email**. Open your inbox and copy the code.
3. Back in the app, enter the code in the field provided, click **Continue**.
4. Codes expire within minutes. If yours expires, request a new one with the resend button.

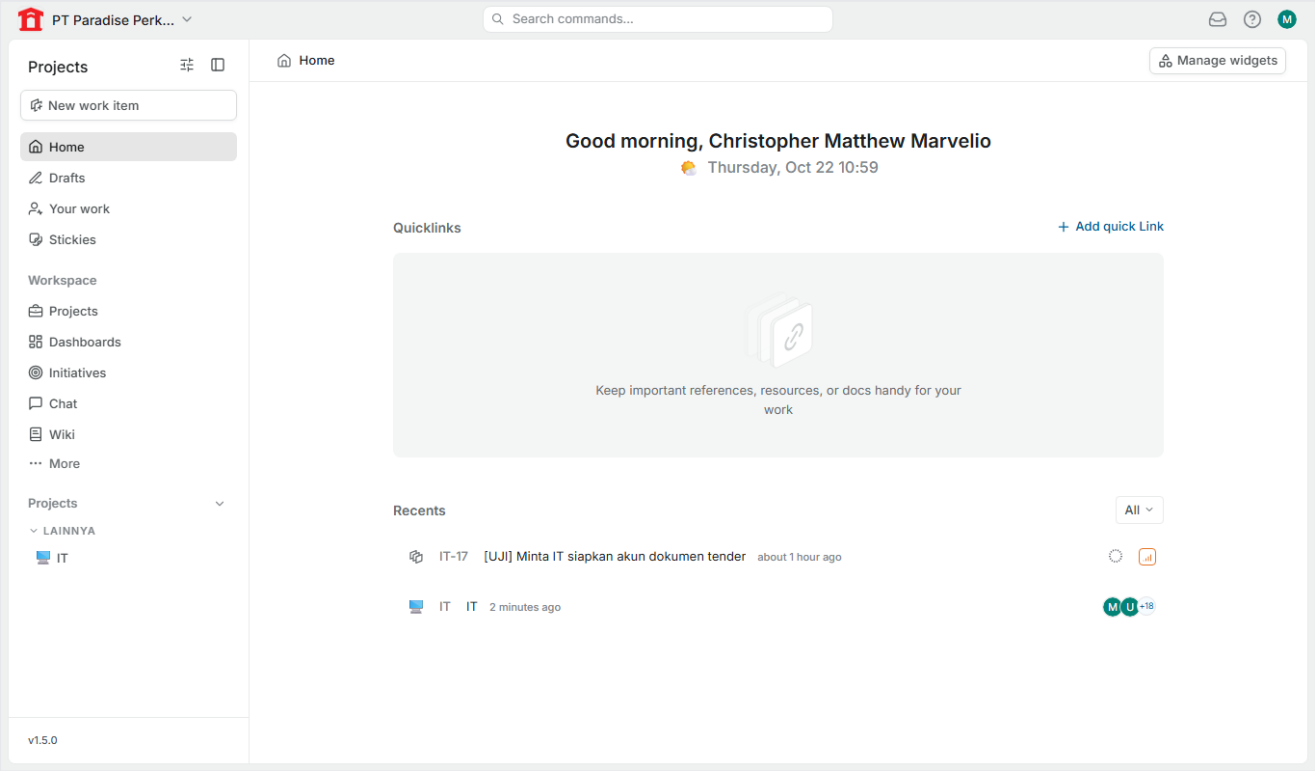

PERHATIAN / NOTE

Security: Never share your password with anyone, including your manager. Change it after your first sign-in (see Section 8).

3. Navigation: menus & layout

3.1. Home page

After signing in you reach **Home**: a greeting with your name and date, **Quicklinks** (your favourite links), and **Recents** (recently opened pages). Use **Manage widgets** to customise it.

Gambar 20, Home: greeting, Quicklinks, Recents.

3.2. Left menu (sidebar)

- **New work item**, quick button to create a job.
- **Home, Drafts, Your work**, home, saved drafts, and every job assigned to you.
- **Stickies**, personal sticky notes.
- **Workspace**, company area: **Projects** (division list, click your division), **Dashboards, Initiatives, Chat, Wiki** (extras), **More**.
- Bottom: shortcuts to your division under **Projects / LAINNYA** (e.g. [IT]).

3.3. Inside a division

- **Work items**, the board of all division jobs (your daily home page).
- **Cycles, Modules, Views**, groupings & alternative views (optional).
- **Pages**, documents. **Intake**, inbox for requests from other divisions.
- **Approvals**, the approval queue (Sections 6-7).

3.4. Top bar (header)

- **Search commands...**, quickly find jobs/commands.
- Top right: notifications, help, and **your photo/initial**, click for profile, settings, and sign out (log out).

3.5. Who can do what (roles)

Role	Allowed to
Staff	Create work items assigned **to themselves**; track submissions in Approvals → My requests; resubmit when rejected.
Manager (division supervisor / manager / director)	Everything staff can, plus **approve/reject** staff submissions in Approvals → Needs my decision.

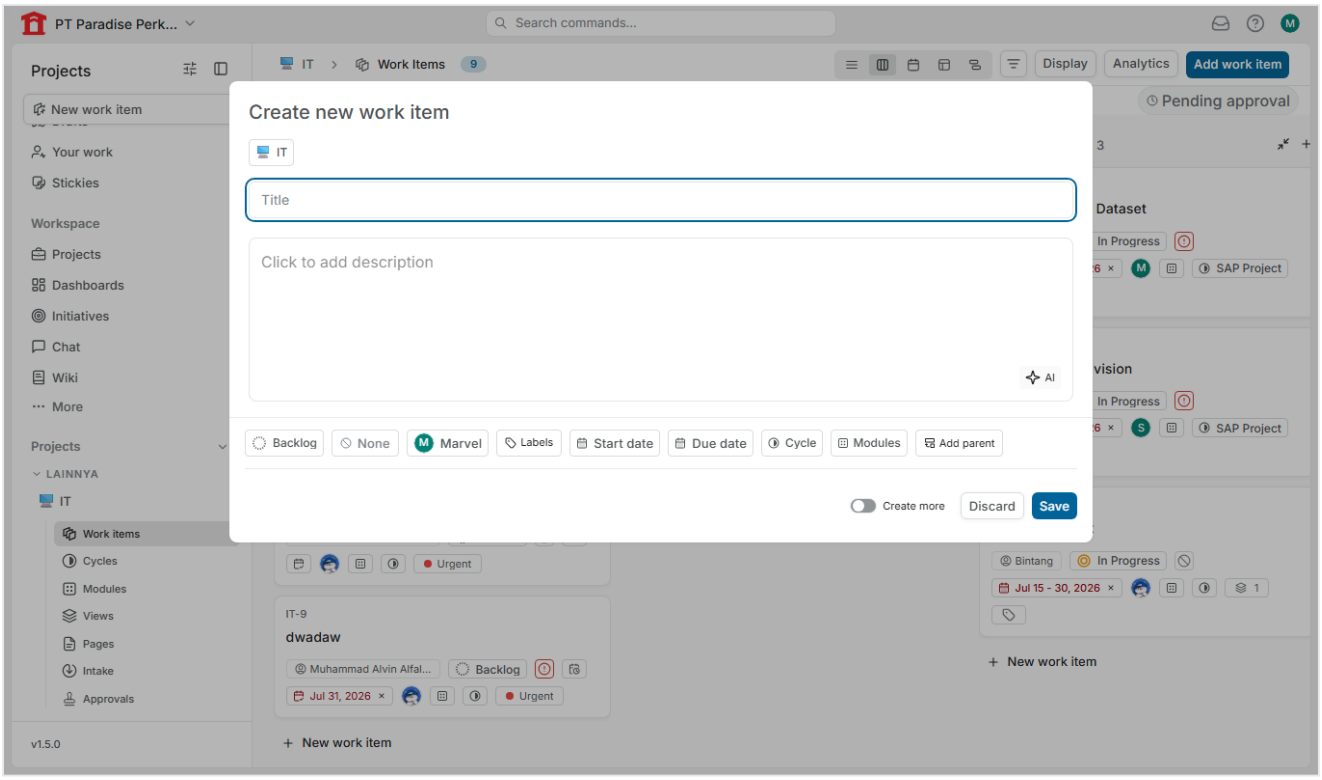

4. Daily workflow

1. **Create** a work item for your job (Section 5). Since you assign it to yourself, it automatically becomes **Awaiting approval**.
2. Your **manager** opens Approvals and approves/rejects it (Section 7).
3. **Approved** → do the work, moving its status (Backlog → Todo → In Progress → done).
4. **Rejected** → read the reason, fix it, **resubmit**.

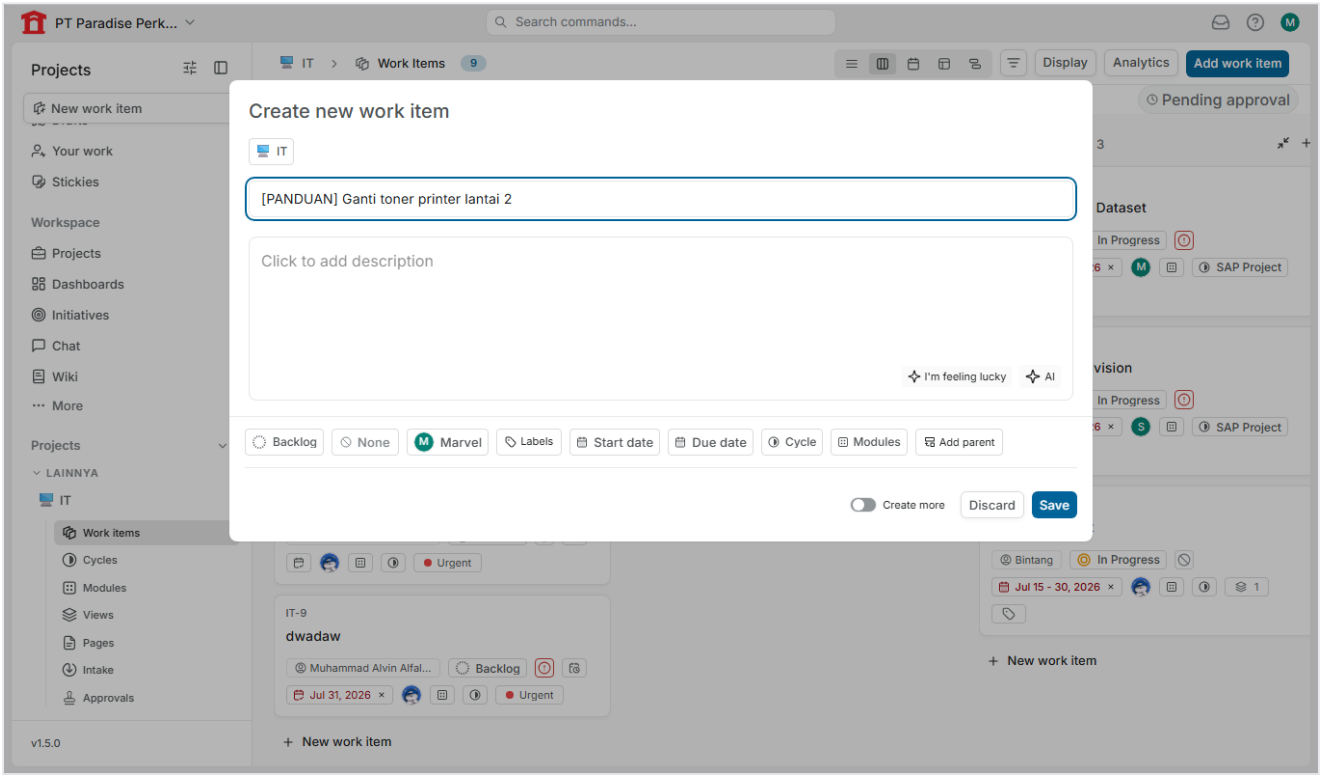

- Staff may only assign work **to themselves**.
- Rejections **must include a written reason**.
- Nobody can approve their own work.

5. Creating a new work item

1. Open your division → **Work items**. Click the blue **Add work item** button (or **+ New work item** under any column).
2. The **Create new work item** window opens. Fill in:
   - **Title**, short & clear, e.g. Replace 2nd-floor printer toner.
   - **Description**, extra details (optional).
   - **Assignee**, already your name. **Do not change it.**
   - **Initial state**, leave Backlog. **Priority**, leave None unless your manager says otherwise.
   - **Labels, Start/Due date, Cycle, Modules**, optional.
3. Click **Save** (**Discard** cancels; **Create more** starts another one right away).
4. The card appears in **Backlog** with a number (e.g. **IT-27**) and an **Awaiting approval** label.

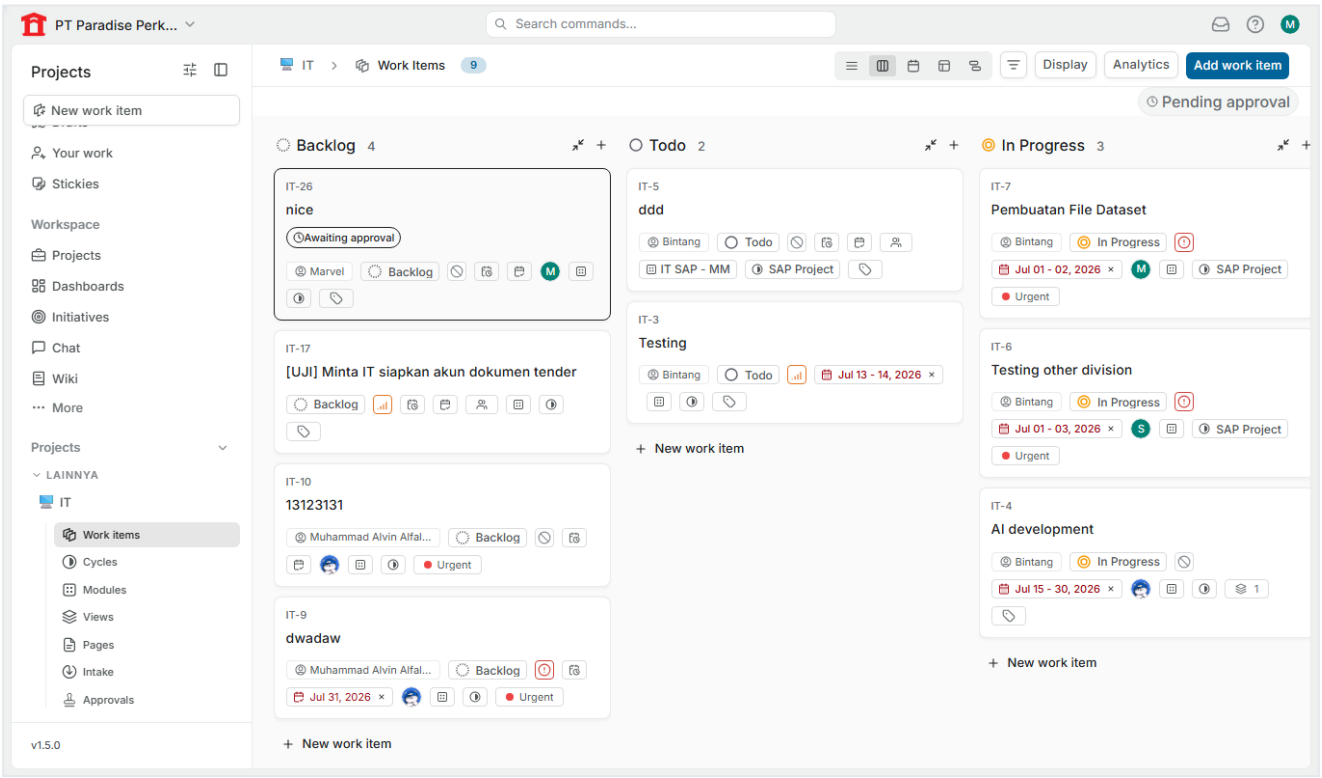

Gambar 21, 'Create new work item' form (empty).

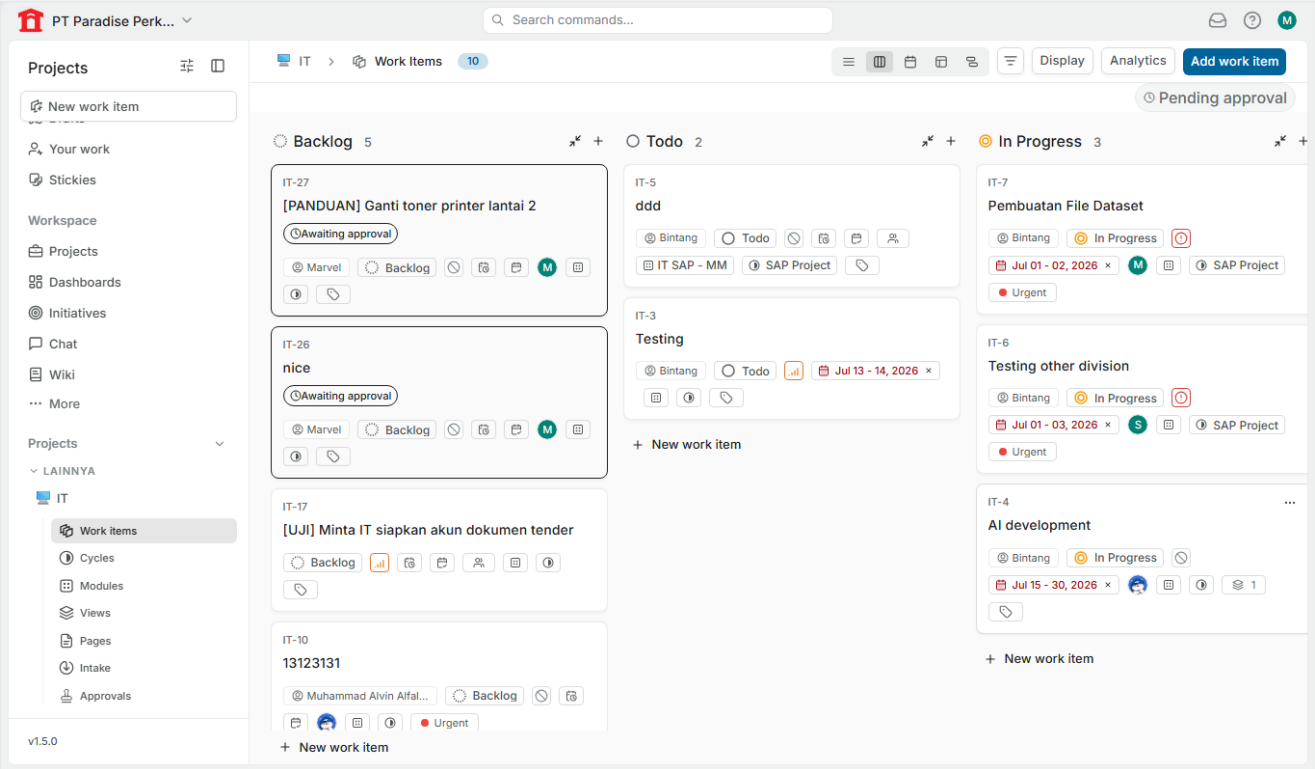

Gambar 22, Filled form: title + yourself as assignee, ready to Save.

TIPS / TIP

Good titles start with a verb, Fix the meeting-room AC, Prepare the March stock report, Call vendor X for a quote.

Gambar 23, Work items board: Backlog/Todo/In Progress columns, numbered cards with status labels, Add work item button, Pending approval indicator.

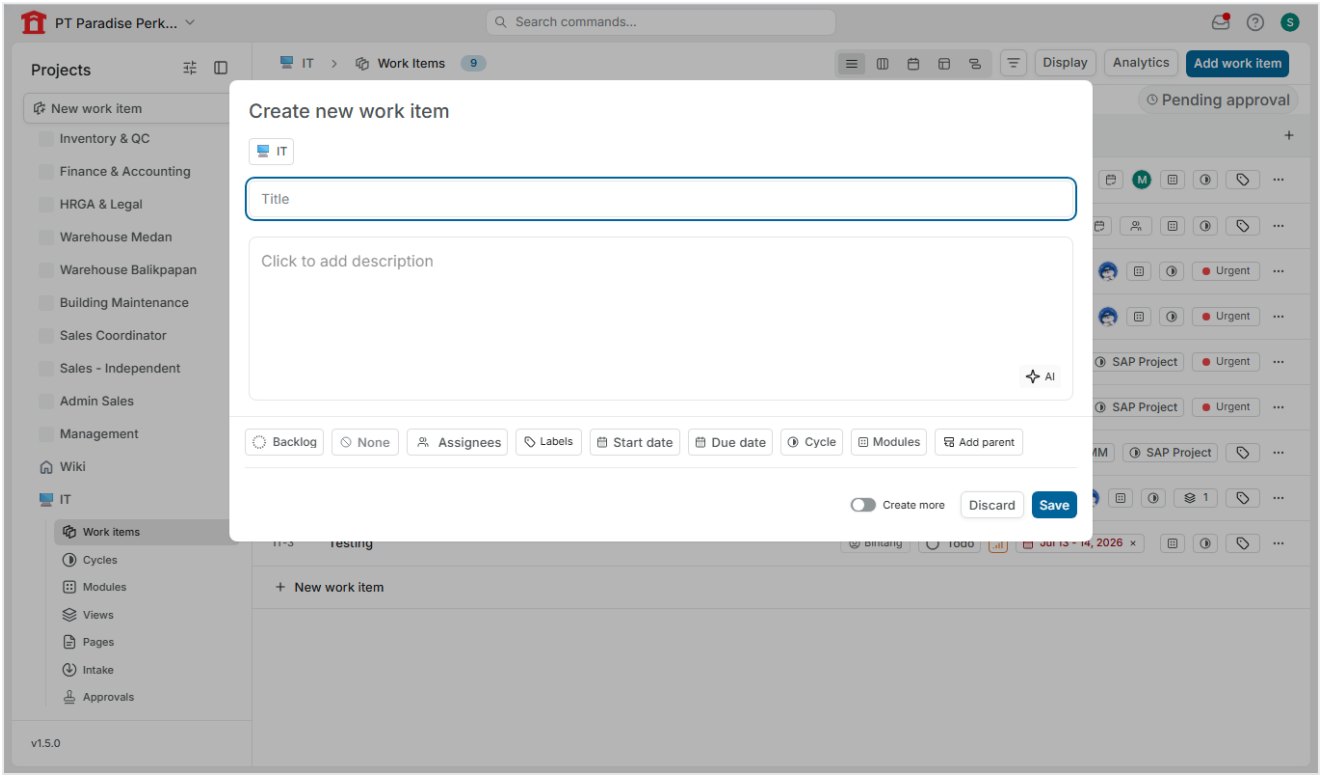

Gambar 24, New card IT-27 labelled 'Awaiting approval'.

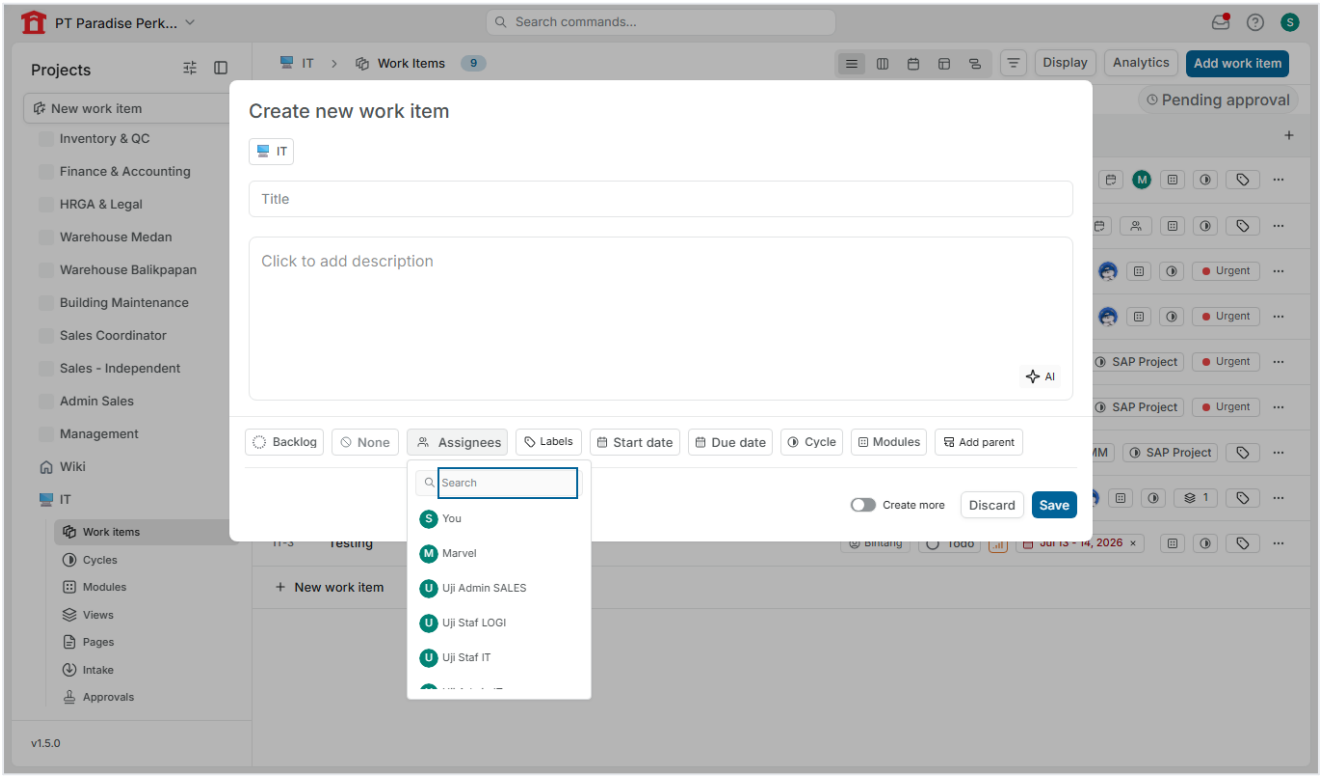

5.4. For managers: creating work items for subordinates

Managers use the same window, but can pick **other assignees**: members of their division (subordinates). How:

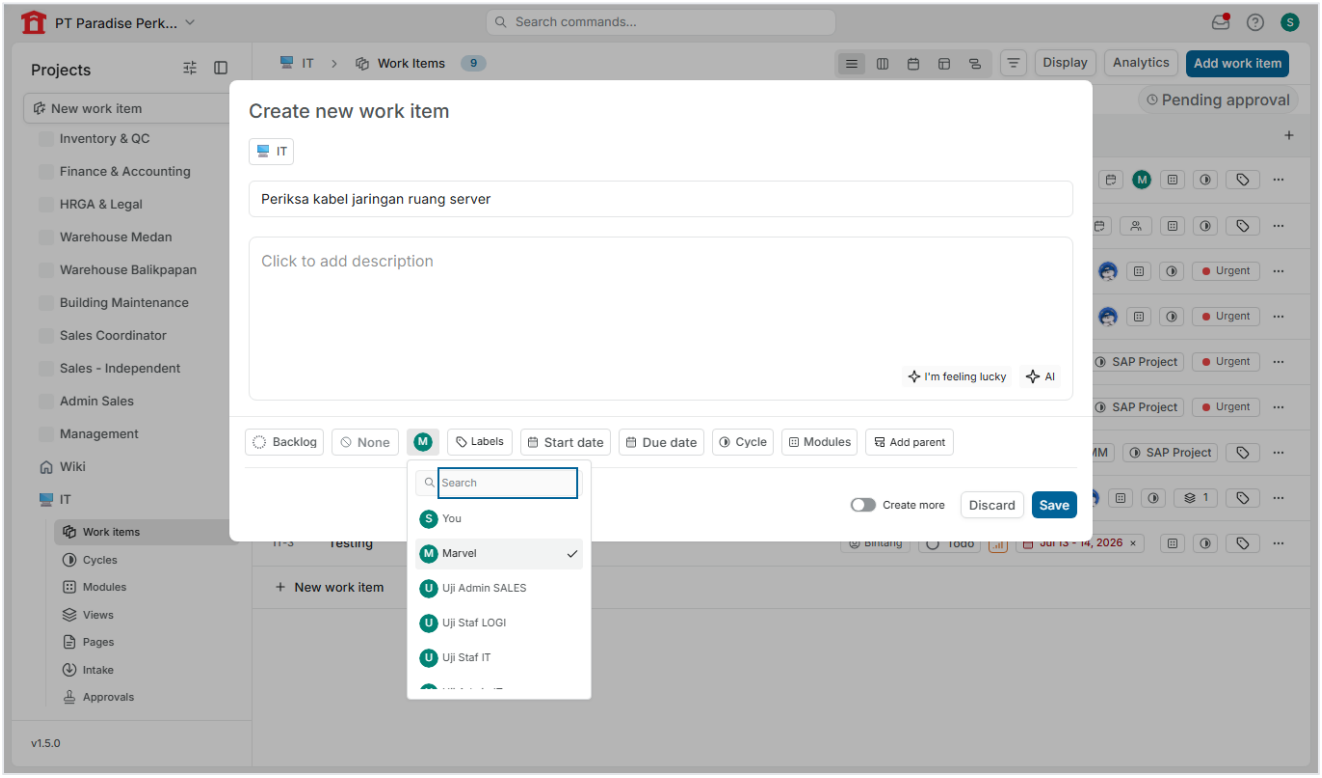

1. Click **Add work item** and fill in **Title** as usual.
2. Click the **Assignees** button. A member list opens: **You** (yourself) plus division members/subordinates. Type in **Search** if the list is long.
3. Click the **subordinate's name** (a checkmark appears). You may select more than one person. Click outside the list to close it.
4. Complete the rest if needed, click **Save**.

Gambar 25, Same form from a manager account, the 'Assignees' button picks the worker.

Gambar 26, Click 'Assignees': a list of 'You' + division members appears.

Gambar 27, Title filled + subordinate (Marvel) selected (checkmarked), ready to Save.

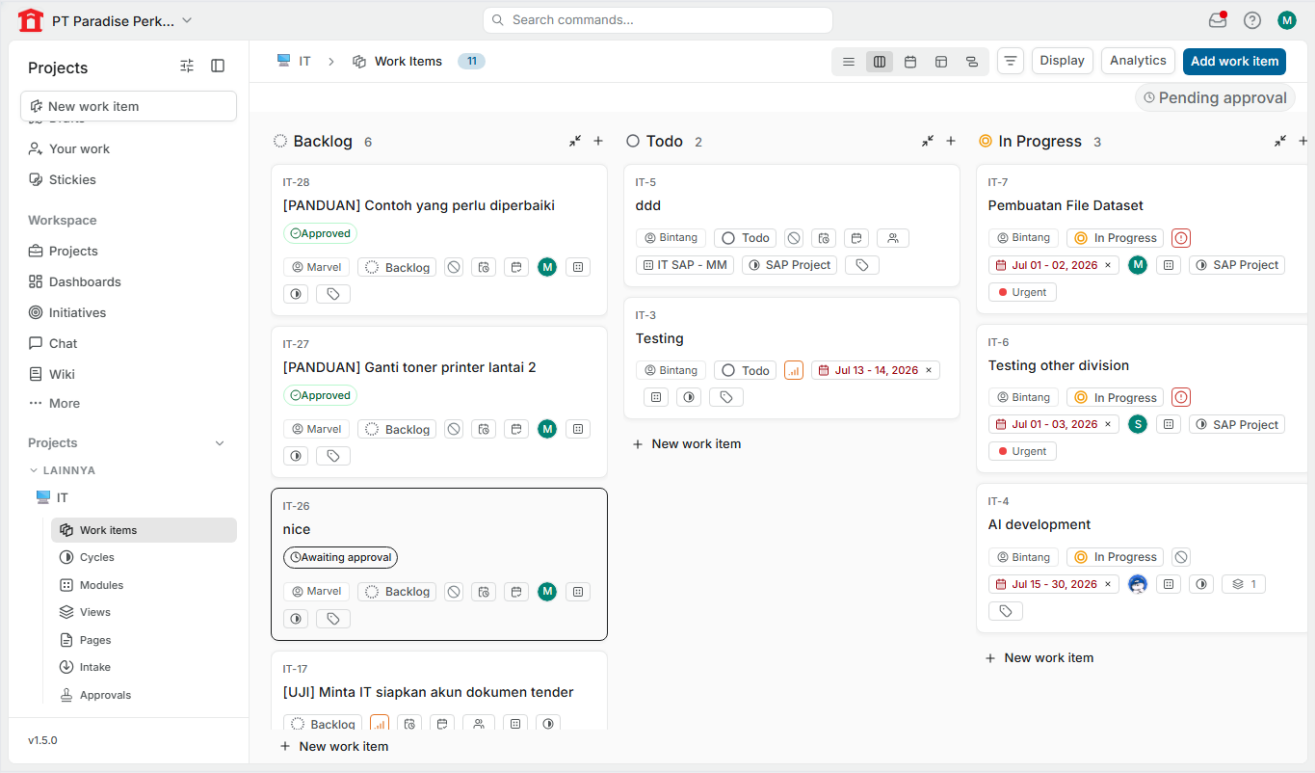

INFO

Jobs created by a **manager need no approval**, whether assigned to a subordinate or to themselves, and appear on the board **without** an “Awaiting approval” label. Approval only applies when **staff assign work to themselves**. Managers can only assign members of **their own division**.

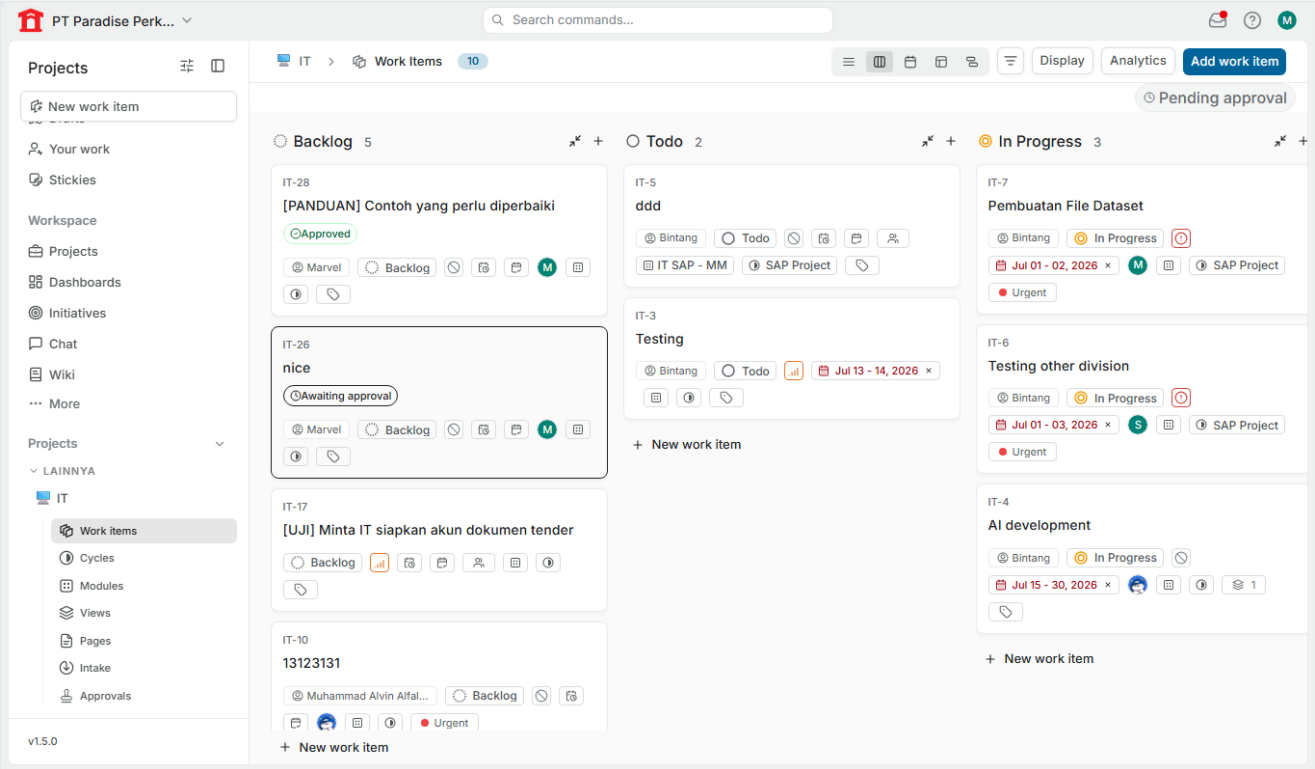

6. Tracking your work status

6.1. On the Work items board

Each card shows **number, title, assignee, state**, plus priority labels (e.g. Urgent) and dates. A yellow **Awaiting approval** label means it waits for your manager. A green **Approved** label means approved, go ahead. A **rejected** card disappears from the board (back to an invisible draft), track it in Approvals instead.

Gambar 28, After approval: green 'Approved' labels (IT-27, IT-28). IT-26 still 'Awaiting approval'.

Gambar 29, Rejection effect: rejected IT-27 leaves the board (draft); approved IT-28 shows Approved.

6.2. In Approvals → My requests

1. Open your division → **Approvals**.
2. Click **My requests** above the list.
3. You see all your submissions: **pending / approved / rejected + reason**. Rejected ones can be **resubmitted** after fixing.

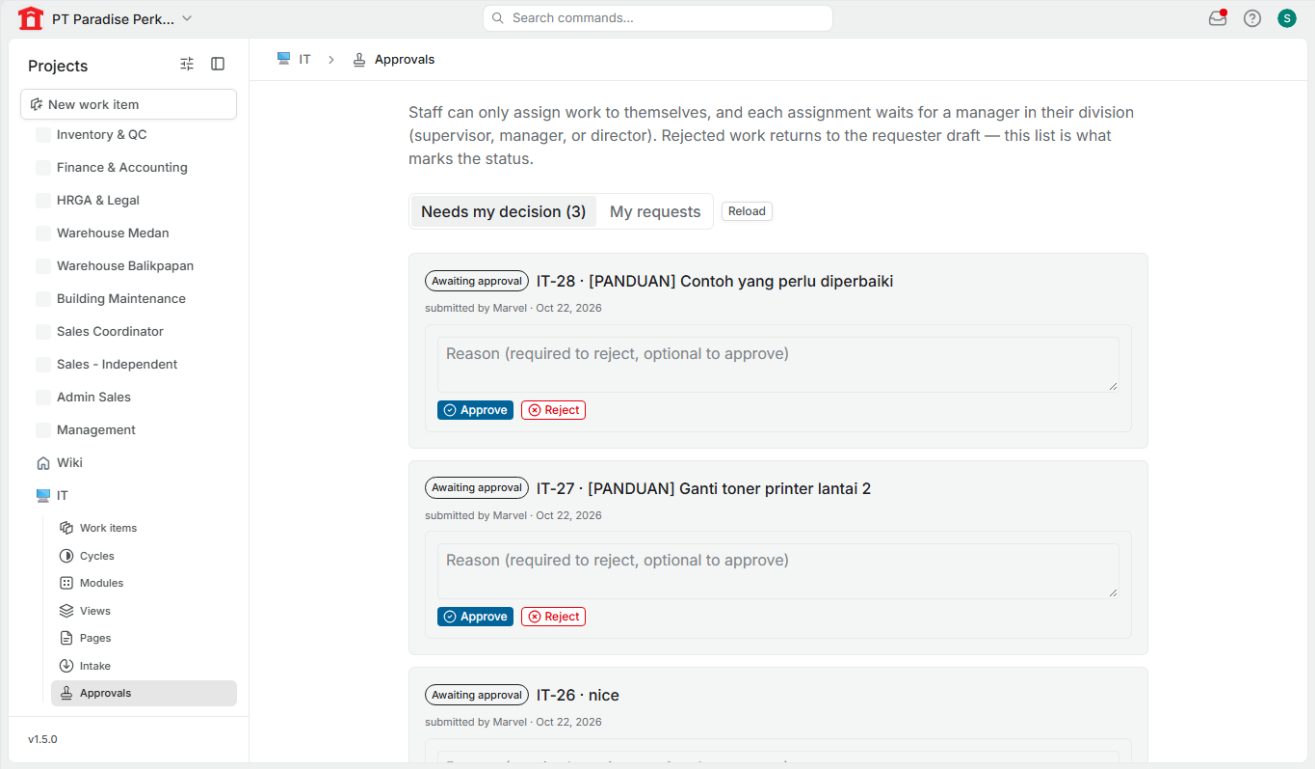

INFO

If the Approvals list seems slow or flickers, it is a known display issue already reported to IT, click **Reload** and wait a moment; your data is safe.

7. Approvals (for managers)

7.1. Opening the queue

1. Open your division → **Approvals**. Make sure **Needs my decision** is active.
2. Each row shows: **number & title, requester, date**, a reason field, and **Approve / Reject** buttons.

Gambar 30, Manager queue: 3 pending requests, each with reason field + Approve/Reject buttons.

7.2. Approving / rejecting

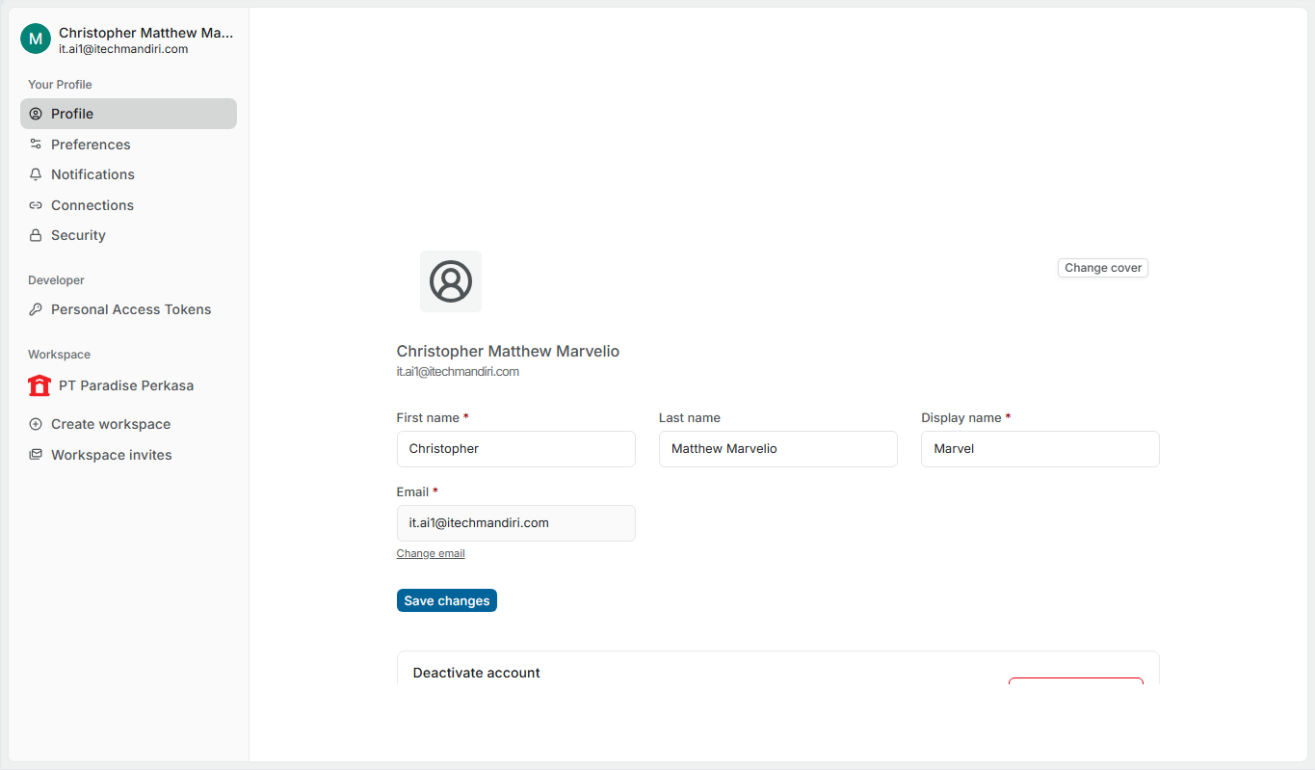

1. Fill the reason field if needed. **Rejecting requires a reason**, staff need it to fix their work; approving may leave it empty.
2. Click **Approve** or **Reject**.
3. The row leaves the queue; the status changes for staff (Approved on the board, or gone + reason in My requests).

7.3. Full cycle

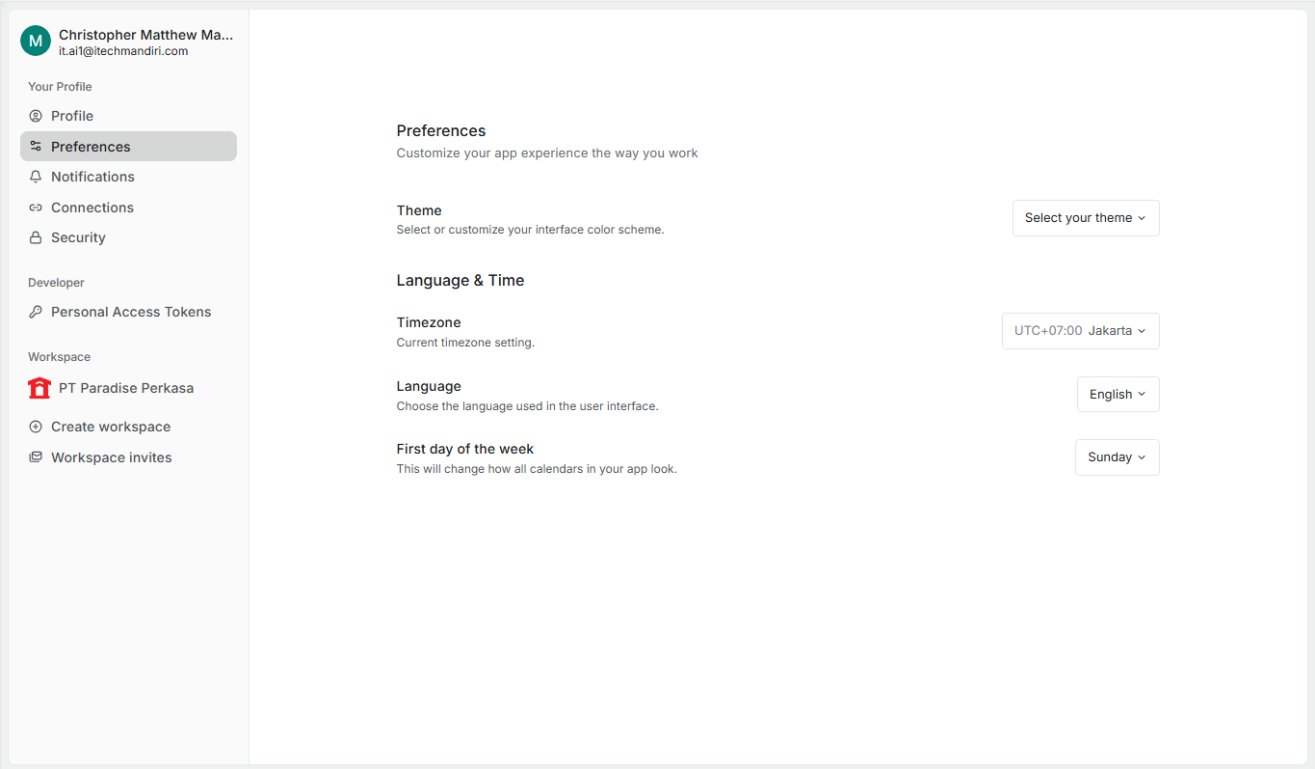

Real example from this system. IT-27 “Ganti toner printer lantai 2”: staff created → manager **rejected** with a reason → staff fixed & **resubmitted** → manager **approved** → green **Approved** card on the board. If staff ask “why was it rejected?”, point them to **Approvals → My requests**.

8. Settings & preferences

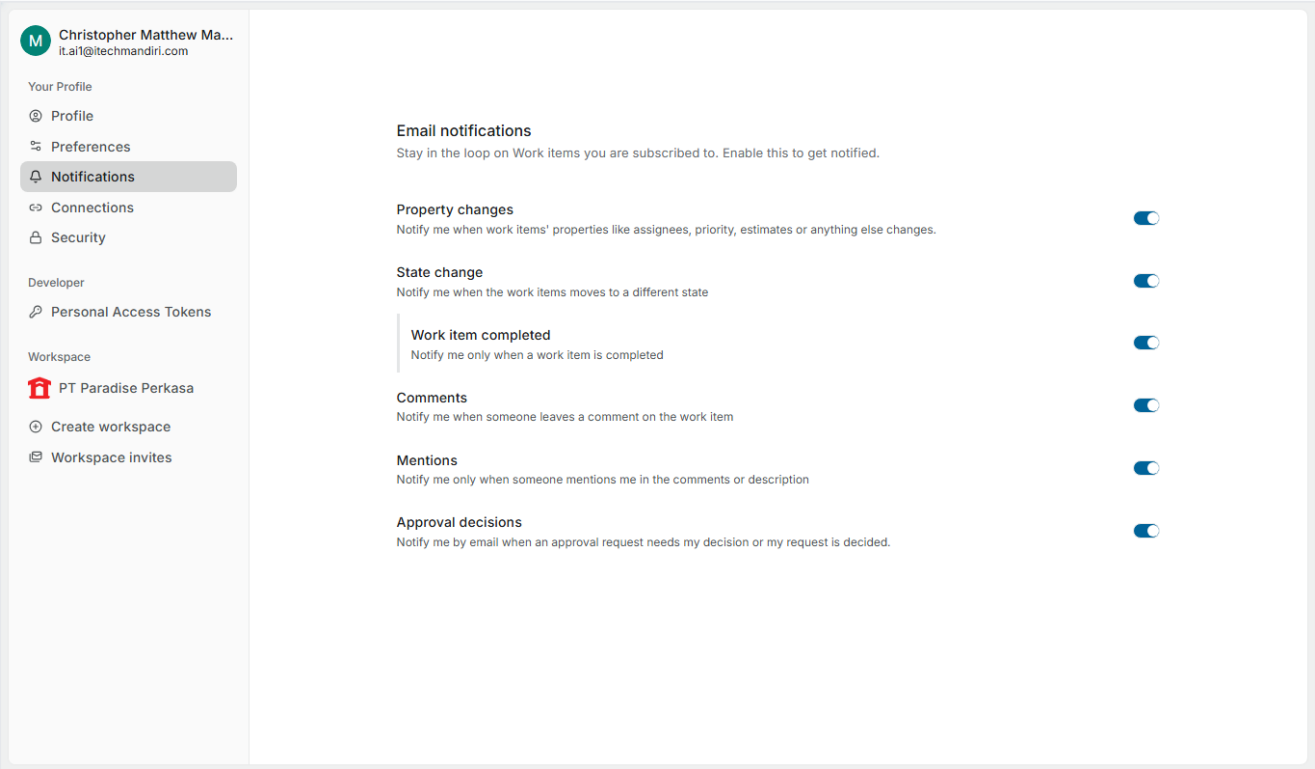

1. Click **your photo/initial** top-right → choose **Profile/Settings**.
2. **Profile (General)**, first/last name, display name, photo, email. Complete it so colleagues recognise you.
3. **Preferences**, **Theme** (light/dark look), **Timezone** (should be UTC+07:00 Jakarta), **Language** (app language), **First day of the week**.
4. **Notifications**, email switches: property changes, state moves, comments, mentions, and **Approval decisions**. Keep them on.
5. **Security**, change password: enter current + new password twice, click **Change password**.
6. Sign out: click your profile photo → **Log out**.

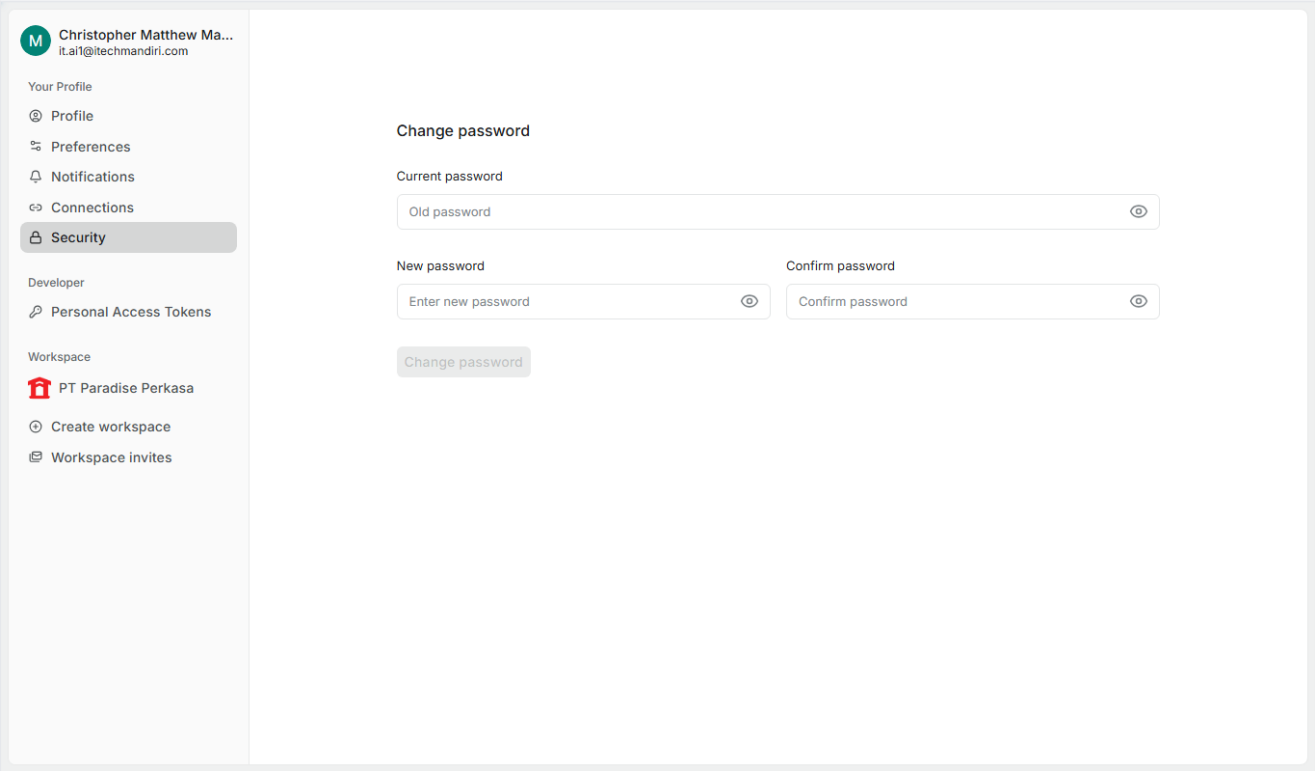

Gambar 31, Profile settings: name, display name, email.

Gambar 32, Preferences: Theme, Timezone (Jakarta), Language, week start.

Gambar 33, Email notifications, incl. 'Approval decisions'.

Gambar 34, Security: change password.

9. Quick help (FAQ)

Problem	Solution
Cannot sign in	Recheck email & password (case matters). Still stuck? Contact IT.
Cannot see other divisions	Normal, you only see your own division.
Save button does nothing	Title is empty, fill the Title field first.
Stuck on “Awaiting approval”	Waiting for your manager. Remind them to open Approvals.
Request rejected	Read the reason in Approvals → My requests, fix, resubmit.
Dates look wrong	Preferences → Timezone = UTC+07:00 Jakarta.
Approvals list flickers/slow	Click Reload and wait. Reported to IT; your data is safe.
Forgot password	Security → Change password (needs old password), or ask IT for a reset.
Other help needed	Contact IT (internal support) and mention the work item number (e.g. IT-27).

, End of guide. This document is internal to PT Paradise Perkasa.
, Akhir panduan. Dokumen ini bersifat internal PT Paradise Perkasa.
